## Note from the Management Team

Dear Shareholders,

It gives me great pleasure to present Oxyzo Financial Services Limited's Annual Report for FY 2025-26.

Amid the Global uncertainty and geopolitical tensions that impacted supply chains, most sectors in India remained resilient with a growing credit demand under strong regulatory oversight.

FY 2025-26 was a landmark year for Oxyzo as we crossed the 10,000 Cr AuM milestone while maintaining best in class credit quality. More importantly, the year marked efforts in institution building with investments in technology, processes, people and business expansion. The Gross Loans and Advances grew 26% year-on-year to ₹10,696 crore, compared with ₹8,483 crore in FY 2024-25 accompanied by Gross NPA improving to 0.74%, compared with 1.09% in the previous year. Business delivered a post-tax RoA of 3.7% with the Group PAT crossing ₹375 crore.

Our capital and liquidity position remained strong, with CRAR at 28.84% and LCR at 170.83%, providing a healthy foundation for future growth.

**Ruchi Kalra**  
WTD and CEO

We also continued to strengthen our funding franchise. During the year, we raised more than ₹ 4,200 crore of debt, taking closing borrowings to approximately ₹8,283 crore diversifying our borrowing base with capital markets now accounting for more than 20% of our borrowings.

At Oxyzo, we have always believed that lending in SME and Emerging Corporate segments has an impact beyond filling a capital gap. It can help businesses grow, create livelihoods, strengthen communities and contribute to the broader progress of the economy. This belief has shaped the institution we have built and continues to shape the way we build the business. In FY 2025-26, we continued to strengthen our SME and Emerging Corporate franchise through investments in field force and expanding into newer clusters along with product cross-sell opportunities aiming to fulfilling all needs of this segment. Though, we selectively grew the more granular portfolios, including micro-enterprises through own origination and retail through co-lending partnerships, more than 80% of our growth during the year came from our core SME and Emerging Corporate segment. We believe this combination of focus on core and building adjacent capabilities is central to building a resilient lending institution.

The year also marked an important step in Oxyzo's evolution beyond lending. We finalised the acquisition of GoldenPi to strengthen our debt capital-markets capabilities on the B2C front through an OBPP play. We also launched performing credit fund, Oxyzo Credit Fund I (OCF-I), and entered fund management through Oxyzo Investment Manager Private Limited. We also simplified our corporate structure through the merger of Z-First Technologies Private Limited. These initiatives are built around our core strengths in SME and Emerging Corporate and give us the opportunity to expand into a broader financial services play.

The year was marked by strong growth, resilient asset quality and continued institution building. We expanded our lending franchise, strengthened our capital and funding position, invested in technology and risk capabilities, and selectively diversified across products and geographies — while remaining firmly anchored to our core SME franchise.

We have continued to invest in our Loan Origination System, Loan Management System, Risk Monitoring System along with cybersecurity and other initiatives on data protection. We invested in various initiatives to improve customer engagement and experience including the grievance management system, AI chat bots in addition to implementing various AI initiatives for better risk, controls and internal operating efficiencies.

*Our motto is clear: to grow with discipline, strengthen with scale and create value through cycles.* The long-term opportunity in India's MSME ecosystem remains compelling. We intend to keep this segment at the heart of our balance sheet, targeting approximately 75% MSME exposure, while pursuing 20%-25% balance-sheet growth along with other value-added offerings for this segment. We believe Oxyzo can achieve its vision to be one of the most respected names in the SME and Emerging Corporate segment only by staying rooted in strong governance, disciplined execution, deep credit expertise and a technology-first approach towards lending.

Oxyzo enters the next phase of its journey with a strong balance sheet, healthy capitalisation, diversified funding, strong asset quality and a growing customer franchise. As we enter this phase, we recognize that scale brings greater responsibility. The larger we become, the greater our responsibility towards our customers, employees, investors, partners, communities and

the environment in which we operate to build an institution that is not only financially strong, but also responsible, resilient and trusted.

I would like to express my sincere gratitude to our customers, investors, lenders, partners and employees for their continued trust and support. On behalf of the Board of Directors, I thank our shareholders, for your continued confidence in Oxyzo.

Warm regards,

**Introduction**

## Business

# Introduction

Oxyzo Financial Services Limited (formerly known as Oxyzo Financial Services Private Limited) ('Oxyzo' or 'the Company') is a Reserve Bank of India (RBI)-registered Middle Layer Non-Banking Financial Company (NBFC) having Certificate of Registration ('CoR') N-14.03380. The Company is rated '[ICRA] A+' (Stable) by ICRA and CRISIL.

Oxyzo is a technology-enabled lending platform focused on the MSME ecosystem, with a presence across Micro Enterprises, SMEs and Emerging Corporates. Its core franchise is focused on SMEs and Emerging Corporates, particularly businesses engaged in manufacturing, subcontracting, value-added activities and B2B services. Within the SME segment, the Company primarily serves established, banked and sizeable businesses, including enterprises with annual revenues broadly in the ₹50–500 crore range.

Oxyzo has innovated by going beyond a traditional approach of a transactional and a one-product proposition by focusing on creating the full suite of products for SMEs aligned to their cash flows and financing needs across the growth cycles. While its working capital products come with a unique feature of payment directly to suppliers of raw material, the term loans are structured to finance working capital requirements of specific industries along with medium term capital expenditure.

Oxyzo primarily engaged in lending activities under 4 business verticals – SME and Emerging Corporates (~65%), micro-enterprises (~10%), Retail partnerships (~10%) and Financial Institutions (~15%). The company's portfolio is well-diversified and anchored in stable, value-generating industries, which helps mitigate volatility.

For the SME and Emerging Corporates, Oxyzo offers a range of financing solutions addressing the diverse requirements of businesses across their operating and growth cycles. Its product suite includes Term Loans, Purchase Financing, Invoice Discounting, Machinery and other structured solutions, catering to requirements ranging from day-to-day procurement and working capital needs to trade-linked financing, capital expenditure and longer-term funding requirements. The Company's sector focus spans manufacturing and subcontracting businesses across areas such as capital goods, consumer goods, packaging, electricals, healthcare, automotive and auto components, polymers and infrastructure-related businesses. During FY'2026, Oxyzo continued to strengthen its SME and Emerging Corporate franchise through expansion into newer clusters and increased product cross-sell opportunities, with more than 80% of growth coming from these core segments. For Micro-enterprises, Oxyzo offers small ticket secured and unsecured loans for micro-businesses in tier-3 and tier-4 locations through a network of 165 sales points primarily across Rajasthan, Haryana and UP. Further individual retail loans are originated through selective co-lending partnerships and underwritten as per rule engine defined and continuously updated by Oxyzo. The lending to other financial services institutions is diversified mix of rated NBFCs across housing, vehicle, gold, LAP, MFI, Consumer finance, etc.

Beyond its core lending franchise, Oxyzo has capabilities across the broader financial services ecosystem. The Company has built a debt capital markets business with institutional and retail distribution capabilities, and also forayed into investment management with its performing credit Oxyzo Credit Fund I, a SEBI Category II AIF.

Oxyzo's presence in the retail fixed-income market shall further strengthen with strong origination capabilities in the emerging corporate segment along with the acquisition of GoldenPi, a SEBI-registered debt broker and Online Bond Platform Provider (OBPP). With over 18 lakh registered users and more than ₹6,000 crore of investments facilitated to date, GoldenPi seeks to make fixed-income investing simple, transparent and accessible.

Oxyzo Investment Manager Private Limited, a wholly owned subsidiary of Oxyzo Financial Services Limited, has been established to pursue alternative investment strategies with a primary focus on performing credit and high-yield opportunities. The entity has constituted the Oxyzo Investment Trust for Alternative Investment Fund and serves as its investment manager. The first scheme of the AIF is "Oxyzo Credit Fund I" (SEBI Category II AIF), with a target fund size of INR 300 Cr (with a green-shoe option of up to INR 200 Cr) was launched in Jan'26. The scheme has a proposed tenure of 4.5 years.

## Macroeconomic Overview and Outlook

The global economic environment during FY2025–26 remained resilient despite elevated geopolitical tensions, trade-policy uncertainty, changing financial conditions and renewed pressure on energy prices. According to the International Monetary Fund (IMF), global growth is projected at 3.0% in 2026 and 3.4% in 2027, while global inflation is expected to moderate over the medium term. The outlook, however, remains subject to risks from geopolitical developments, trade fragmentation, commodity-price

volatility and tighter global financial conditions.

Against this backdrop, the Indian economy continued to demonstrate resilience and remained among the fastest-growing major economies. India's real GDP grew by 7.6% in FY2025–26, supported by domestic consumption, investment activity, manufacturing and services growth, and continued Government spending on infrastructure and capital formation.

The outlook for FY 2026–27 remains constructive, although external and supply-side risks warrant continued vigilance. The Reserve Bank of India (RBI), in its August 2026 Monetary Policy Statement, projected real GDP growth at 6.7% for FY 2026–27 and retained the policy repo rate at 5.25% with a neutral stance. The RBI highlighted resilient domestic demand, continued investment activity, strong capacity utilisation, robust credit flows and Government-led infrastructure spending as key supports to growth. At the same time, elevated energy prices, commodity shortages, geopolitical developments, global trade uncertainty and weather-related risks remain important monitorables.

## Financial Services and NBFC Sector

This economic environment continues to support structural demand for formal credit. NBFCs play an important role in meeting the financing requirements of individuals, MSMEs and businesses through specialised underwriting, differentiated distribution and technology-enabled lending models. Increasing formalisation through GST and Udyam registrations, improving availability of credit information and digital lending infrastructure are further expanding the addressable market for formal credit.

The NBFC sector remained fundamentally healthy during FY2025–26. According to the RBI's Financial Stability Report released in June 2026, credit growth of NBFCs in the Upper and Middle Layers stood at 16.6% year-on-year as of March 2026, while asset quality, profitability, capitalisation and liquidity remained healthy. The evolving funding environment also reinforces the importance of diversified funding sources, strong credit profiles and prudent asset-liability management.

Within this broader financial services landscape, the MSME ecosystem represents a significant structural opportunity. MSMEs are central to India's manufacturing, supply-chain and employment ecosystem, but continue to have diverse and evolving financing requirements across working capital, procurement, trade and business expansion. Increasing formalisation, digitisation of business transactions and improved availability of financial and operational data are enabling lenders to underwrite and serve these businesses more effectively.

The opportunity is particularly relevant across India's manufacturing and subcontracting ecosystem, where growth in domestic consumption, infrastructure, capital expenditure and formal supply chains is creating financing requirements across the value chain. Businesses supplying larger corporates and participating in organised manufacturing and B2B ecosystems increasingly require timely and appropriately structured credit to fund procurement, working capital, capacity expansion and longer-term investments. For lenders, this creates an opportunity to build deeper relationships with established MSMEs by addressing financing requirements across their business lifecycle. Small-ticket business finance, working capital, purchase and supply-chain financing, trade-linked financing and capex funding remain relevant areas of credit demand.

The global economy had been on course for stronger than-expected growth before the war in Iran erupted in the end of February 2026. The uncertainty surrounding the duration and magnitude of the tensions in the Middle East is a high-risk factor that can impact the global economy through continuing supply chain disruptions. Further the unpredictability around tariff structures may also impact select sectors. However, S&P Global Ratings projects India's GDP to grow at 7.1% in FY 2026–27 driven by strong private consumption and modest recovery in private investment. However, downside risks to the outlook could emanate from the Gulf conflict.

The outlook for the financial services sector remains constructive, supported by resilient domestic activity, increasing formalisation, financial inclusion and structural credit demand. At the same time, sustainable growth will require disciplined underwriting, diversified funding, strong collections, efficient operating models, technology-led execution and robust governance. Oxyzo aims to remain focused on the MSME segment, with 75–80% of its balance sheet targeted towards core sectors such as manufacturing and sub-contracting, while targeting 20–25% growth over the next few years. The next phase of growth will be driven by deeper penetration across existing and adjacent industrial clusters, expansion into mid-market segments, and the introduction of innovative lending products and channel partnerships and supply chain finance.

Oxyzo will leverage technology, including automation, digital partnerships and AI-led initiatives, to enhance customer experience, operating efficiency and risk management, while continuing to strengthen its governance, risk and compliance framework. As part of its broader evolution into an integrated wealth and financial services franchise, Oxyzo aims to build a comprehensive offering across NBFC lending, Alternative Investment Funds (AIF), Debt Capital Markets (DCM) and other complementary financial solutions, creating a holistic platform to serve the evolving needs of SMEs, emerging corporates and investors.

## Regulatory Developments and Key RBI Initiatives

During FY2025–26, the RBI continued to strengthen the regulatory framework for the financial services sector, with a focus on responsible credit growth, funding discipline, digital lending, risk management and customer protection. These developments provided greater clarity for NBFCs and reinforced the importance of sustainable and well-governed lending.

**Funding and credit partnerships:** In April 2025, the RBI issued the revised *Master Circular on Bank Finance to NBFCs*, providing greater clarity on bank funding to NBFCs. The RBI also proposed, in April 2025, expanding the scope of co-lending arrangements across regulated entities and loan categories. Together, these developments support a more structured and diversified funding and credit-partnership ecosystem, relevant to Oxyzo as it scales its lending franchise.

**Responsible and digital lending:** In May 2025, the RBI issued the *Digital Lending Directions, 2025*, strengthening requirements around borrower transparency, disclosures, digital lending partners and responsible digital practices. For technology-enabled lenders such as Oxyzo, these measures reinforce the need to combine digital efficiency with strong customer protection and regulatory controls.

**Risk management and governance:** During June–November 2025, RBI measures covering project finance, AIF investments, credit-risk transfer and the consolidation of NBFC regulations strengthened expectations around underwriting, provisioning, concentration risk and governance. These developments reinforce the importance of disciplined credit and portfolio management as Oxyzo scales its MSME lending business and expands into adjacent financial services.

**Customer protection:** During July 2025–January 2026, measures covering pre-payment charges, KYC and grievance redressal strengthened transparency and fair treatment of borrowers. *The Internal Ombudsman Directions, 2026*, issued in January 2026, further strengthened independent review of eligible customer complaints.

Overall, the regulatory direction during FY2025–26 has been towards **more responsible, transparent and resilient financial intermediation**. For Oxyzo, this provides a clearer framework for scaling its lending business while maintaining prudent funding, risk management, technology governance and customer-centric practices.

The company raised INR 4,200+ Cr across financial institutions (Bank, NBFC and FIs) with total borrowing stands at 8,374 Cr. The Company has diversified sources of borrowings including debt market (non-convertible debentures and commercial paper), banks and financial institutions (term loans, working capital facilities and external commercial borrowings). Focus on diversification of debt from capital markets through NCDs has increased to ~22%. The Company endeavors to maintain a prudent mix of fixed rate borrowings and variable rate borrowings.

The Company has an independent, full-fledged treasury department that effectively manages borrowings, liquidity, and treasury investments along with their risks and reporting requirements as laid down by the ALCO, Board and/or RBI. Investment activities are undertaken in line with guidelines to maintain Liquidity Coverage Ratio (LCR) & HQLAs and invest surplus funds in various liquid instruments.

We maintained a strong liquidity position throughout the year. Liquidity is composed of cash/cash equivalents, available bank lines and stock of unencumbered assets. The Company has a prudent ALM policy and the Asset Liability Committee regularly monitors the ALM. The Company throughout the year has maintained positive mismatches across buckets up to 5 years i.e. the cumulative inflows of assets are higher than the cumulative outflows. Our nature of business and lending product and liability mix ensures a healthy ALM.

| Above 5 yr | 3,296                   | +40%  |              |

The Company continues to fulfil all the norms and standards laid down by the RBI rules and regulations viz. recognition of non-performing assets, capital adequacy requirements, liquidity coverage ratio, etc. Company has been able to maintain a Capital Adequacy Ratio (CRAR) of 28.84% as on March 31, 2026, which is well above the RBI mandated norm of 15%.

During FY2025–26, the Company continued to create social impact through CSR initiatives focused on women's empowerment, healthcare, education and employability. Key programmes included vocational and AI/ML skill development for women, mobile healthcare and anaemia screening, education support for underserved children, and industry-oriented professional training. The initiatives reached 20,900+ beneficiaries across the year, supported through partnerships and implementation agencies, with progress monitored through defined outcomes and periodic reviews.

## Risk Management Approach

Figure 1: Risk at a glance – FY 2026

CRAR and ECL provision as of 31 March 2026; liquidity buffer growth over 31 March 2025. Regulatory minimum CRAR for NBFCs: 15%.

The Company's risk architecture is anchored in a Board-approved Risk Management Policy that defines risk appetite, roles, limits and escalation mechanisms across the organisation. The Policy is reviewed at least annually and refreshed in response to material changes in the business, product mix or regulatory environment, in line with the RBI's Scale Based Regulation (SBR) framework.

The Company's approach rests on four guiding principles:

- **Consistency** - a common approach to identifying, assessing and managing risks across products, segments and functions.
- **Risk-adjusted returns** - balancing growth and returns within the Board-approved risk appetite.
- **Ownership and culture** - embedding risk ownership across functions, supported by maker-checker controls and independent oversight.
- **Resilience** - maintaining adequate capital, liquidity and provisioning buffers to absorb potential shocks.

## Risk Governance and Management Framework

Risk appetite and policies are set at the Board level and cascaded through Senior Management, the independent Risk function and business and support functions. The Three Lines of Defense framework establishes clear ownership of risks, independent oversight and assurance. Risk management follows a continuous cycle of identifying, assessing, measuring, monitoring and reporting risks, with key risks tracked through defined indicators, thresholds and escalation mechanisms.

## 5. Principal Risks and How They Are Managed

The Company is exposed to five principal risks: credit, liquidity and capital, market and interest rate, regulatory and compliance, and operational risk. These are managed through Board-approved policies, defined limits, monitoring mechanisms and independent oversight.

## 5.1 Credit Risk

Credit risk is managed through segment-specific underwriting, defined approval matrices and continuous portfolio monitoring. The credit process covers KYC, negative-sector and bureau screening, underwriting, deviation review and post-disbursement monitoring.

### Credit decision and monitoring flow

The Board-approved Risk Policy covers process, customer, industry, product and monitoring risks. ECL is assessed under Ind AS 109 using PD, LGD and EAD, with ECL provision at ₹110.22 crore as of March 2026.

### ECL provision

## 5.2 Liquidity and Capital Risk

Liquidity is managed through the Board-approved ALM framework and ALCO oversight, with liquidity mismatches and funding requirements monitored against defined limits. As of 31 March 2026, **CRAR stood at 28.85%** and the liquidity buffer stood at **₹981 crore**.

## Capital adequacy and liquidity buffer

Liquidity buffer as of 31 March 2024, 2025, and 2026; CRAR as of 31 March 2026. Regulatory minimum CRAR for NBFCs: 15%.

## 5.3 Market and Interest Rate Risk

Market and interest rate risk is monitored through gap analysis, earnings-at-risk and defined rate-shock scenarios. Exposures are reviewed by ALCO against approved limits.

## 5.4 Regulatory and Compliance Risk

The Compliance function tracks regulatory developments, assesses their impact and coordinates implementation across policies, products and systems. Compliance is independently tested and reported to Senior Management, the Audit Committee and the Board.

Figure 8: Regulatory change management flow

## 5.5 Operational Risk

Operational risk is managed through documented processes, technology controls and maker-checker mechanisms across the customer lifecycle, from sourcing and underwriting through monitoring, collections and renewal. Internal Audit and other independent reviews provide additional assurance.

Table 2: Operational risk control environment

| Control pillar                      | Key measures                                                                                     |
|-------------------------------------|--------------------------------------------------------------------------------------------------|
| Independent assurance               | In-house Internal Audit and Process Audit team; risk-based concurrent reviews across functions   |
| Technology and information security | System- and technology-enabled controls to protect data privacy and defend against cyber threats |
| Process controls                    | Maker-checker controls embedded across all key functions and transaction flows                   |
| In-house critical functions         | Legal, technology and collections remained in-house, ensuring direct control and accountability  |
| Risk transfer                       | All assets and business operations adequately covered under insurance                            |
| Business continuity                 | Documented continuity and disaster-recovery arrangements, tested periodically                    |

## Internal Audit and Control

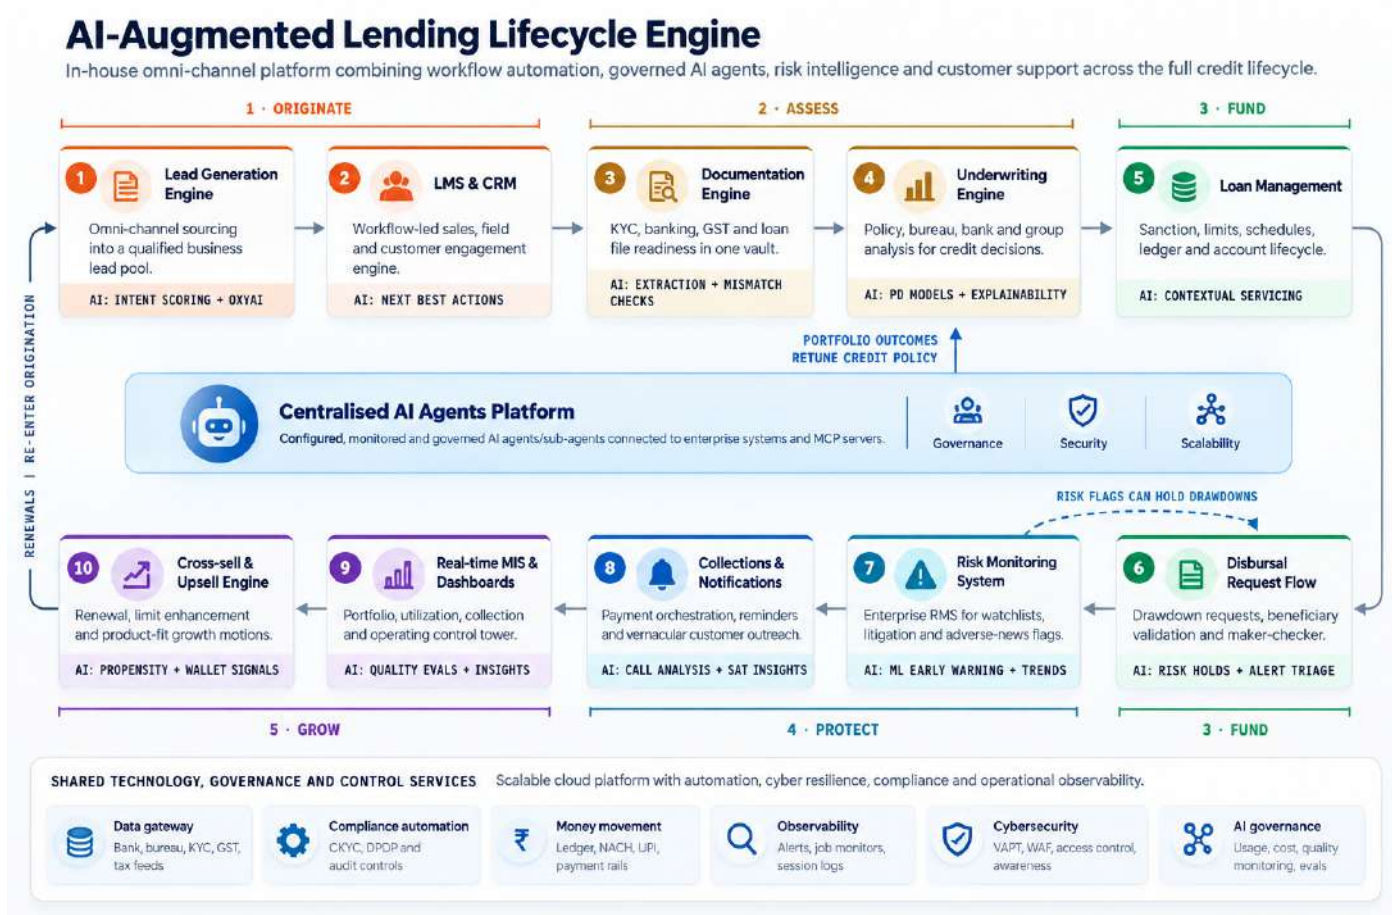

The Company has established a robust Internal Audit function, supported by a dedicated in-house audit team. The function operates under a Risk-Based Internal Audit (RBIA) framework, ensuring that audit coverage remains aligned with key business risks, regulatory requirements, and evolving market conditions.

The annual Internal Audit Plan is approved by the Audit Committee of the Board and is periodically reviewed and updated to address emerging risks and changing business priorities. The plan provides comprehensive coverage of all business units, processes, and support functions, based on a systematic risk assessment of all auditable entities.

The Internal Audit function works closely with business and support functions to drive continuous improvement while maintaining its independence and objectivity. It also coordinates with the Risk Management and Compliance functions to ensure an integrated approach to risk management and controls in line with the “Three Lines of Defense” model.

## Information Technology

At Oxyzo, technology continues to be a cornerstone of our business operations and has been integral to our journey since inception. We have developed an in-house, omni-channel, highly scalable, workflow-driven, cloud-based end-to-end loan origination and management platform that serves as the backbone of the Company. The platform enables faster implementation, cost efficiency, seamless scalability and operational flexibility, while contributing to improved productivity, reduced turnaround times, optimized delivery costs and enhanced customer experience.

During the year, the Technology team continued to invest in digital capabilities with a strong focus on Artificial Intelligence (AI), automation, cybersecurity, regulatory compliance, risk management and customer experience. The Company is increasingly leveraging AI and intelligent automation across the lending lifecycle to augment decision-making, improve operational efficiency, strengthen risk controls and provide faster and more contextual customer support.

Our technology architecture continues to evolve towards a more intelligent and data-driven ecosystem, with greater integration of AI capabilities across business functions. These investments are aimed at creating scalable platforms that can support the

Company's growth while maintaining high standards of security, compliance, resilience and operational control. Some of the key projects implemented are:

### Advancing Artificial Intelligence and Intelligent Automation

- **Centralised AI Agents Platform:** The Company launched a centralised AI platform to develop, configure and manage AI agents and sub-agents across Oxyzo. The platform enables centralised configuration of AI models, integration with enterprise systems and MCP servers, monitoring of AI sessions and requests, usage and cost management, quality monitoring and evaluation of AI responses. AI capabilities across Oxyzo's products and functions are increasingly being channelised through this platform.
- **AI-led Process Improvement:** Multiple AI-powered initiatives were launched across functions such as sales, underwriting and risk to improve information processing, enhance decision support and automate repetitive activities. These initiatives leverage the Company's AI agent platform to deploy function-specific intelligence while maintaining centralised monitoring and governance.
- **Vernacular Audio Intelligence:** AI capabilities were introduced to analyse recorded underwriting, collection and customer support calls, enabling extraction of relevant information, summarisation and customer satisfaction insights.
- **AI-powered Document Intelligence:** AI and specialised language models were deployed to extract and cross-check information from documents and system data, supporting faster processing and enhanced risk and fraud controls.
- **AI Chatbot – OxyAI:** OxyAI was launched on the Oxyzo website to provide customers with natural-language access to product information, FAQs and account-related information, while also enabling customers to raise support requests.

### Strengthening Risk Management and Early Warning Capabilities

- **RMS:** Our in-house Risk Management System serves as the enterprise-wide backbone for portfolio surveillance and credit risk governance. RMS continuously monitors borrower entities through automated risk flags, watchlists, litigation tracking and adverse-news screening, aggregating signals from bureaus, statutory filings and third-party data sources into a single organisation-level risk view. It helps in computing client-level risk score and tracking of risk trends over time. Machine-learning based scoring models augment analyst judgement, while configurable task, approval and escalation workflows ensure every alert is investigated, actioned and auditable.
- **Probability of Default:** Models were developed to predict the probability of customer default at the time of sanction, with supporting explanations to aid credit decisions and risk-based pricing.
- **Transaction Monitoring:** The Transaction Monitoring System was enhanced with CIBIL, disbursement, documentation, KYC and other risk alerts to enable proactive identification and review of emerging risks.
- **Early Warning Systems:** Early Warning Systems were implemented for SME and Retail portfolios to identify emerging delinquency trends and support proactive portfolio monitoring.

### Enhancing Regulatory Compliance and Data Governance

- **CKYC Automation:** CKYC search, download and update processes were automated, significantly reducing manual intervention and improving operational efficiency.
- **DPDP Compliance:** Technology initiatives were undertaken to support compliance with the Digital Personal Data Protection framework and strengthen responsible management of personal data.

### Elevating Customer Experience and Support

- **Enhanced Customer Support:** Query handling and support processes were further automated to enable faster resolution and reduce manual intervention.
- **Integrated IVR:** A new Vernacular IVR system integrated with the Loan Management System was introduced to improve access to information and customer support.

- **AI-enabled Customer Interactions:** AI-based chatbot and call analysis capabilities are being used to provide more contextual customer interactions and generate insights to improve service quality.

## Cybersecurity Reinforcements

The Company continued to strengthen its cybersecurity framework through technology, process and employee awareness initiatives. Measures included enhanced monitoring and early warning mechanisms, regular Vulnerability Assessment and Penetration Testing (VAPT), Web Application Firewall (WAF) capabilities, access controls and cybersecurity awareness programmes. These initiatives are aimed at strengthening cyber resilience and protecting critical systems and information assets.

Through these initiatives, Oxyzo continues to leverage technology, AI and data as strategic enablers of growth, operational efficiency, risk management, cybersecurity, regulatory compliance and customer-centricity. The Company's investments in scalable digital platforms, intelligent automation and responsible AI adoption are aimed at building a resilient, secure and future-ready technology ecosystem capable of supporting the evolving needs of its customers, employees and other stakeholders.

## Human Resources

Grounded in our belief that organizational success is intrinsically tied to human capital development, our HR strategy for FY 2025-26 focused on strengthening our core values, advancing HR tech and process automation, and fostering continuous capability building across the enterprise.

Our core values — Warrior Spirit, Unrivalled Culture, Integrity, Industry Excellence, and Customer Centricity — served as the foundation for how we groomed, evaluated, and empowered our workforce across every touchpoint. This growth-oriented approach supported the Company's continued scale-up during the year, with the workforce expanding to 2,276 employees as new hiring kept pace with business requirements across field and non-field functions.

## Driving Performance

We instilled a relentless focus on high accountability, ownership, and resilience through our structured Performance Management System (PMS). By aligning individual KPIs directly with strategic business objectives, performance tracking was seamlessly integrated into daily operations rather than treated as a periodic exercise. Continuous review dialogues throughout the year empowered employees to bridge skill gaps, push boundaries, and progress through meritocratic, performance-linked career advancement.

## Onboarding and Induction

New employees, including Management Trainees and lateral hires, were welcomed through a structured induction program covering departmental orientation, policy familiarisation, and role-specific onboarding modules, delivered through our newly launched centralized HRMS platform.

## Engagement and Culture

We cultivated an engaging, transparent, and collaborative environment where employees felt a deep sense of belonging, purpose, and workplace safety. Active workplace connection was fostered through open communication forums, peer-recognition platforms, and energetic team competitions such as the Oxyzo Premiere League (OPL). Employee engagement remained a round-the-year endeavour, with regular Fun@Work campaigns keeping employees motivated, and major festivals — including Diwali, Holi, Basant Panchami, and Christmas — celebrated with enthusiasm through engaging activities and hampers for winners. Ongoing POSH awareness training, grievance redressal processes, and workplace-conduct norms under the POSH Committee continued to reinforce a respectful and secure workplace.

## HR Digitalization

Integrity continued to anchor both our operational practices and our technology infrastructure. With the launch of our new, centralized HRMS platform, we automated the entire employee lifecycle — from onboarding to payroll. Digitizing pre-joining

document submissions, tax calculations, and statutory compliance workflows eliminated manual processing errors, strengthened data privacy, and ensured accurate, transparent payouts that reinforced employee trust.

## Continuous Learning and Capability Building

We prioritized continuous capability building to keep our workforce agile, competitive, and future-ready, achieving an average of over 20 training hours per employee during the year. Cross-functional competency was promoted through dedicated training sessions across all departments, fostering collaborative expertise between teams. Our L&D interventions equipped teams with specialized technical skills in digital lending tools, AI applications, Loan Origination/Management Systems (LOS/LMS), risk management, governance, and cybersecurity. Structured transition initiatives such as Super 40, First-Time Management (FTM), Interviewing Skills, and Structured Feedback prepared employees to navigate role changes smoothly, support internal mobility, and step confidently into leadership positions.

## Customer-Centric Capability Building

A commitment to customer-centric execution guided our capability programs, particularly across frontline, sales, and operational functions. Through targeted modules in sales effectiveness, client communication, and financial understanding, our teams developed the technical sharpness and empathy required to deliver tailored, need-based financing solutions and build trusted, long-term business partnerships.

## Talent Attraction and Retention

Talent attraction and retention remained a management priority through the year, with hiring across field and non-field functions supporting the Company's growth momentum. We continue to monitor attrition trends closely — particularly in field-facing roles, which naturally see higher mobility — to strengthen retention through onboarding, engagement, and career-development initiatives.

## Employee Wellbeing and Workplace Safety

Workplace safety continued to be managed through internal policies, administrative controls, and coordination with facility management teams, covering fire-safety systems, hazard reporting, and periodic safety inspections across our office locations. On the wellbeing side, our benefits framework — spanning health insurance, disability coverage, retirement benefits, and ESOPs — was complemented this year by continued support for employees availing parental leave, with the Company maintaining its track record of employees returning to work and remaining with the organization well beyond their leave period.

**(CSR) Initiatives**

## Corporate Social Responsibility (CSR) Initiatives

At Oxyzo Financial Services Limited, responsible growth extends beyond business performance to creating meaningful, sustainable impact in the communities we serve. In FY 2025-26, the Company strengthened its CSR initiatives across education, healthcare, women's empowerment, skill development and livelihood enhancement, aligned with Schedule VII of the Companies Act, 2013.

The Company partnered with sixteen implementing organisations during the year, reaching 15,354+ children through education programmes, 4,800+ women and children through healthcare interventions, and 97+ beneficiaries through vocational and livelihood initiatives.

### Healthcare

The Pink Smile Mobile Medical Unit, run with Smile Foundation, focused on women, children and adolescents — reaching **4,800+ beneficiaries**, screening **2,000 for anaemia**, facilitating **1,500 teleconsultations**, training **49 frontline workers** and supporting **15 Anganwadis**.

## Women's entrepreneurship and livelihoods

Under the Saksham programme, run with BITS Pilani–PIEDS, the FY 2025–26 cohort of five women-led startups reported **₹4.68 crore** in revenue, a combined valuation of **₹72 crore**, and **32 jobs** created — alongside vocational training, digital and AI/ML skilling, incubation and market-linkage support for women more broadly.

## Education:

The Every Child in School programme provided foundational literacy and numeracy support to **15,354 children** across **15 states and 26 districts**, with mentoring for **7,717 reserved category** students, alongside scholarships and tuition support for students facing financial hardship. Through its partnership with Vishwa Prakash Mission (VPM) Trust, Oxyzo supported 77 meritorious students across 13 states in pursuing professional education, including 50 MBBS, 17 B.Tech and 10 MCA, LLB, laboratory technology and other students.

## Skilling and livelihoods

Vocational training in beauty services, technical trades and carpentry, plus digital-skilling and livelihood programmes for women artisans, supported women and youth from economically weaker sections.

All programmes run through credible partner organisations under a structured monitoring framework — partner due diligence, milestone-based fund releases, progress reporting, utilisation reviews and impact monitoring — with oversight from the CSR Committee and Board against the Annual Action Plan.

Going forward, the Company will deepen its focus on measurable outcomes, inclusion and scalable community impact, working closely with implementation partners to widen reach and strengthen effectiveness.

# Independent Auditor's Report

To the Members of OXYZO Financial Services Limited  
(formerly known as OXYZO Financial Services Private Limited)

## Report on the Audit of the Standalone Financial Statements

### Opinion

We have audited the accompanying standalone financial statements of OXYZO Financial Services Limited (formerly known as OXYZO Financial Services Private Limited) ("the Company"), which comprise the Balance sheet as at March 31, 2026, the Statement of profit and loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow for the year then ended, and notes to the financial statements, including material accounting policies information and other explanatory information (herein after referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### Emphasis of Matter

We draw your attention to Note no. 62 to the standalone financial statements in respect of the Scheme of Arrangement (the 'Scheme') between the Company and its subsidiary namely, Zfirst Technologies Private Limited ('Amalgamating Company') to amalgamate the Amalgamating Company in Company, and upon completion of amalgamation, slump sale of the loan facilitating services business of amalgamated company to its wholly owned subsidiary namely, Ziel Financial Technologies Private Limited ('Transferee Company') from the appointed date, i.e., 1st April 2023. The National Company Law Tribunal, New Delhi vide its order dated 13th February, 2026 approved the Scheme and same become effective from 7th March, 2026 upon filing of the certified copy of the said Order with the Registrar of Companies. The accounting treatment pursuant to the Scheme has been given effect to from the date required under Ind AS 103 - Business Combinations, which is the beginning of the preceding period presented i.e. 1<sup>st</sup> April, 2024. Accordingly, the figures for the year ended 31st March, 2025 have been restated to give effect to the aforesaid Scheme.

Our opinion is not modified in respect of this matter.:

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this Auditors' Report. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

## Responsibilities of Management and those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position/state of affairs, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the

Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

## Other Matter

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid standalone financial statements;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account;
  - d. In our opinion, the aforesaid standalone financial statements, comply with the Indian Accounting Standards specified under section 133 of the Companies Act, 2013, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - e. On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;

- f. With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note no. 59 (i) to the Standalone Financial Statements;
  - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company. (Refer Note 65 to the standalone financial statements);
  - iv. (a). The management has represented that to the best of its knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries [Refer Note 58 (vi) to the standalone financial statements];  
 (b). The management has represented that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, no funds (which are material either individually or in aggregate) have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries [Refer Note 58 (vii) to the standalone financial statements];  
 (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) above as required by Rule 11 (e) of Companies (Audit & Auditors) Rules, 2014, as amended, contain any material mis-statement;
  - v. The Company has not declared or paid dividend during the year, accordingly the provisions of section 123 of the Companies Act, 2013 are not applicable;
  - vi. Based on our examination which included test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2026, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Further, the audit trail, to the extent maintained in the prior year, has been preserved by the Company as per the statutory requirements for record retention [Refer Note 70 to the standalone financial statements].
3. In our opinion and to the best of our information and according to the explanation given to us, the managerial remuneration for the year ended March 31, 2026 has been paid/ provided for by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act.

## Annexure A To The Independent Auditor's Report

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF OXYZO FINANCIAL SERVICES LIMITED (FORMERLY KNOWN AS OXYZO FINANCIAL SERVICES PRIVATE LIMITED) FOR THE YEAR ENDED MARCH 31, 2026

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report]

- i. (a) A. The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment, investment property and relevant details of the right of use assets.

B. The Company has maintained proper records showing full particulars of intangible assets.

(b) The Property, Plant and Equipment, Investment Property and right of use assets were physically verified by the management during the year and according to the information and explanation given to us, no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the Property, Plant and Equipment is reasonable having regard to the size of the Company and the nature of its assets.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the standalone financial statements are held in the name of the Company except title deed of lands of the company classified under investment property and assets held for sale which is held in erstwhile name of the Company "Oxyzo Financial Services Private Limited" as at balance sheet date (refer note no. 10 and 16 of the standalone financial statements).

(d) According to the information and explanations given to us, the Company has not revalued its property, plant and Equipment (including Right of Use assets) and its intangible assets. Accordingly, the requirements under paragraph 3(i)(d) of the Order are not applicable to the Company.

(e) According to the information and explanations given to us and records provided, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has disclosed the details in its standalone financial statements does not arise.

- ii. (a) The Company is mainly involved in the business of rendering services and does not have any inventory. Accordingly, the provisions stated in paragraph 3(ii)(a) of the Order are not applicable to the Company.

(b) According to the information and explanations given to us and as per the records verified, the Company has been sanctioned working capital limits in excess of Rs. 500 lakhs, in aggregate, from banks and financial institutions ('FIs') on the basis of security of current assets. In our opinion and according to the information and explanations given to us and to the extent records made available for verification, the quarterly statements, in respect of the working capital limits have been filed by the Company with such banks and financial institutions and such statements are in agreement with the unaudited books of account of the Company for the respective periods.

- iii. (a) According to the information explanation provided to us, the Company's principal business is to give loans. Hence, the provisions under paragraph 3(iii) (a) of the Order are not applicable to the Company.

(b) Based on our examination and the information and explanations given to us, in respect of the loans granted and investments made, in our opinion, the terms and conditions under which such loans granted and investments made are not prejudicial to the interest of the Company. The Company has not provided any guarantee during the year.

(c) The Company, being a NBFC, registered under provisions of RBI Act, 1934 and rules made thereunder, in pursuance of its compliance with provisions of the said Act/rules, particularly, the Income Recognition, Asset Classification and Provisioning Norms, monitors repayments of principal and payment of interest by its customers as stipulated. In our opinion and according to the information and explanation given to us, in respect of loans and advances in the nature of loans, the schedule of repayment of principal and payment of interest has been stipulated and in case where repayment of principal and payment of interest is not received as stipulated, the cognizance thereof is taken by the Company in the course of its periodic regulatory reporting. Refer note no. 49(i) A) and 54 to the standalone financial statements for summarised details of such loan/advances as at March 31, 2026. According to the information and explanations made available to us, reasonable steps are taken by the Company for recovery thereof.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the details of amount overdue for more than ninety days are as follows:

| No. of Parties | Principal amount overdue (INR Lakhs) | Interest and other charges overdue (INR Lakhs) | Total overdue (INR Lakhs) # | Gross NPA (including not due) (INR Lakhs)# | Remarks (specify whether reasonable steps have been taken by the Company for recovery of principal amount and interest)              |
|----------------|--------------------------------------|------------------------------------------------|-----------------------------|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| 555            | 5,535.12                             | 296.47                                         | 5,831.59                    | 7,894.2L                                   | According to information given to us, reasonable steps have been taken by the Company for recovery of principal amount and interest. |

#Gross, without considering ECL

(e) The Company's principal business is to give loans. Hence, the provisions stated under paragraph 3(iii) (e) of the Order are not applicable to the Company.

(f) According to the information explanation provided to us, the Company has not granted any loans and / or advances in the nature of loans during the year which are either repayable on demand or without stipulating the schedule for repayment of principal and interest. Hence, the requirements under paragraph 3(iii)(f) of the Order are not applicable to the Company.

- iv. In our opinion and according to the information and explanations given to us, the Company is in the business of lending loans, which are given at the interest rates which are generally higher than the minimum rates stipulated in section 185, and therefore section 185 is not applicable to the Company. The Company has not made investments through more than two layers of investment companies in accordance with the provisions of section 186 of the Act. Accordingly, provisions stated in paragraph 3(iv) of the Order are not applicable to the Company.
- v. In our opinion and according to the information and explanations given to us, the Company has not accepted deposits or amounts which are deemed to be deposits within the meaning of section 73 to 76 of the Act or any other relevant provisions of the Act and the rules framed there under (to the extent applicable). We have been informed that no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or other Tribunal in this regard.
- vi. The provisions of sub-section (1) of section 148 of the Act are not applicable to the Company as the Central Government of India has not specified the maintenance of cost records for any of the products of the Company. Accordingly, the provisions stated in paragraph 3 (vi) of the Order are not applicable to the Company.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, undisputed statutory dues including goods and services tax, provident fund, income-tax, cess and other statutory dues, as applicable, have been regularly deposited with the appropriate authorities, no undisputed amounts payable in respect of goods and services tax, provident fund, income-tax, cess and other material statutory dues applicable to it, were outstanding at the year end, for a period of more than six months from the date they became payable.
- (b) According to the records and information & explanations given to us, there are no statutory dues referred to in sub-clause (a) above that have not been deposited with the appropriate authorities on account of any dispute except for the following cases:-

| Name of the statute  | Nature of dues | Amount Involved (INR lakhs)# | Amount paid under protest (INR lakhs) | Period to which the amount relates | Forum where dispute is pending       |
|----------------------|----------------|------------------------------|---------------------------------------|------------------------------------|--------------------------------------|
| Income Tax Act, 1961 | Income Tax     | 52.26                        | 52.26                                 | 2019-20                            | Commissioner of Income Tax (Appeals) |

## "Annexure-B" To The Independent Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date on the standalone financial statements of OXYZO Financial Services Limited (formerly known as OXYZO Financial Services Private Limited) for the year ended 31<sup>st</sup> March 2026)

### **Report on the Internal Financial Controls with respect to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with respect to standalone financial statements of OXYZO Financial Services Limited (formerly known as OXYZO Financial Services Private Limited) ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### **Responsibilities of Management and Those Charged with Governance for Internal Financial Controls**

The Company's management and Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based with respect to standalone financial statements on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls with respect to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with respect to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with respect to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with respect to standalone financial statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with respect to standalone financial statements of the Company.

### **Meaning of Internal Financial Controls with respect to Standalone Financial Statements**

A company's internal financial control with respect to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with respect to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance

regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

### **Inherent Limitations of Internal Financial Controls with respect to Standalone Financial Statements**

Because of the inherent limitations of internal financial controls with respect to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with respect to standalone financial statements to future periods are subject to the risk that the internal financial control with respect to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

### 1. Corporate Information

Oxyzo Financial Services Limited (Formerly known as Oxyzo Financial Services Private Limited) (the “Company” or “Oxyzo”) is a debt listed Company domiciled in India and incorporated under the provisions of the Companies Act, 2013. The Company is holding a Certificate of Registration ('CoR') and registered as a Middle layer Non-Deposit taking Non-Banking Financial Company ('NBFC') as defined under Section 45-IA of the Reserve Bank of India (RBI) Act, 1934 (Registration No. N-14.03380) and is primarily engaged in the business of lending. The Company has its registered office at Shop No. G-22C (UGF) D-1 (K-84) Green Park Main, New Delhi-110016 (India).

### 2. Material Accounting Policies:

#### 2.1 Statement of compliance

These Standalone financial statements (herein after referred to as 'financial statements') have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of Companies Act, 2013 (the 'Act') and other relevant provisions of the Act. In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied along with compliance with other statutory promulgations require a different treatment. Further, the Company has complied with all the directions related to Implementation of Indian Accounting Standards prescribed for Non-Banking Financial Companies (NBFCs) in accordance with the RBI circulars/notifications.

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, except where a newly issued accounting standard is initially adopted or a revision to the existing accounting standard require a change in the accounting policies hitherto in use.

The financial statements were reviewed by the audit committee on 27 May 2026 and authorized for issue by the Company's Board of Directors on 28 May 2026.

#### 2.2 Basis of preparation:

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period and derivative financial instruments. The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

#### 2.3 Functional and presentation currency:

These financial statements are prepared in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest lakhs and two decimals thereof, except as stated otherwise.

#### 2.4 Presentation of financial statements:

The Balance Sheet, the Statement of Change in Equity and the Statement of Profit and Loss is presented in the format prescribed under Division III of Schedule III of the Act,

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

as amended from time to time, for Non-Banking Financial Companies ('NBFCs'), that are required to comply with Ind AS. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows".

The disclosure requirements with respect to items in Balance Sheet, the Statement of Change in Equity and the Statement of Profit and Loss is presented in the format prescribed under Division III of Schedule III of the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Amounts in the financial statements are presented in Indian Rupees in Lakhs rounded off to two decimal places as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupee to two decimal places.

### 2.5 Revenue recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery. Revenue is measured at the fair value of the consideration received or receivable as reduced for estimated customer credits and other similar allowances.

Incomes are recognised net of the goods and services tax, wherever applicable.

#### (i) Interest income:

Interest income is recognised in the Statement of Profit and Loss and for all financial instruments (except for those classified as held for trading or those measured or designated as at fair value through profit or loss (FVTPL) and at fair value through other comprehensive income (OCI)) is measured using the effective interest rate method (EIR).

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the financial assets at amortised cost, transaction costs, and all other premiums or discounts and it represents a rate that exactly discounts estimated future cash payments / receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability. For financial assets at FVTPL transaction costs are recognised in profit or loss at initial recognition.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for expected credit losses (ECLs)). For financial assets originated or purchased credit-impaired (POCI) the EIR reflects the ECLs in determining the future cash flows expected to be received from the financial asset.

Delayed payment interest (penal interest and the like) levied on customers for delay in repayments/non-payment of contractual cashflows is recognised on realization basis.

#### (ii) Other revenue from operation

The Company recognizes revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognizes revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

(a) **Fee and commission income:**

Revenue (other than for those items to which IND AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. IND AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

Fee and commission income includes fees other than those that are an integral part of EIR. The fees included in the Company's statement of profit and loss includes service and administration charges towards rendering of additional services to its loan customers and other fees charged for servicing of loans, fees charged on account of loan commitments and loan advisory fees.

Foreclosure charges are collected from loan customers for early payment / closure of loan and are recognised on realisation.

(b) **Net gain on fair value change:**

The company recognizes gains on fair value change of financial assets measured at FVTPL and realized gains on derecognition of financial assets measured at FVTPL on net basis. However, Net gain/loss on derecognition of financial assets measured at amortised cost is presented separately under the respective head in the statement of profit and loss.

(c) **Income from Direct Assignment:**

Gains arising out of direct assignments comprise of the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the right of the excess interest spread (EIS). The future EIS basis the scheduled behavioral cash flows on execution of the transactions, discounted at the applicable rate entered with the assignee is recorded upfront in the statement of profit and loss.

(d) **Other operational revenue:**

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

(iii) **Other income:**

The Company recognizes revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Company identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognizes revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

### 2.6 Expenditures:

(i) **Finance costs:**

Finance costs represent interest expense and transaction cost recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than those classified at FVTPL.

(ii) **Other expenses:**

Other expenses are recognized on accrual basis and provisions are made for all known losses and liabilities. The Company has also entered into a shared services arrangement for sharing of common resources and facilities

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

with group companies. The cost allocated to the Company under such cost sharing arrangement are included under the respective account head, as applicable. The cost allocated to other entity under this arrangement is reduced from concerned account head and shown as recoverable from concerned entity.

### 2.7 Property, plant and equipment (PPE):

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment, if any consistent with the criteria specified in Ind AS 16 'Property, plant and equipment'. Cost includes all direct cost related to the acquisition of PPE and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy.

Depreciation is recognised using straight line method so as to write off the cost of the assets (other than freehold land)) less their residual values over their useful lives specified in Schedule II to the Companies Act, 2013, or in case of assets where the useful life was determined by technical evaluation, over the useful life so determined. Depreciation method is reviewed at each financial year end to reflect expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end with the effect of any change in the estimates of useful life/ residual value is accounted on prospective basis.

Useful life as used by the Company as indicated in Schedule II are listed below:

- Computers and Laptops- 3 Years
- Office Equipment- 5 Years
- Furniture and fixtures- 10 Years
- Leasehold property – 5-9 years^

Depreciation for additions to/deductions from, owned assets is calculated pro rata to the period of use. Depreciation charge for impaired assets is adjusted in future periods in such a manner that the revised carrying amount of the asset is allocated over its remaining useful life.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in profit or loss.

^ Leasehold improvements are depreciated on a straight-line basis over the remaining period of the lease or estimated useful life of the assets, whichever is lower.

### 2.8 Intangible assets including Intangible assets under development:

#### (i) Technology related development cost:

Technology related development costs incurred by the Company are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenses incurred during the application development stage. The costs related to planning and post implementation phases are expensed as incurred.

Expenditure on research activities are recognized in the statement of Profit and Loss as incurred. Development activities relate to production of new or substantially improved products and processes. Development expenditure is capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalized

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

includes direct labour and overhead costs that are directly attributable to preparing the asset for its intended use.

(ii) **Software:**

Software acquired by the Company are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes any directly attributable expenses necessary to make the asset ready for use.

**Subsequent expenditure:** Subsequent expenditure is recognized as an increase in the carrying amount of the assets are carried when it is probable that future economic benefit deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

**Amortization expense:** Amortization expense on intangible assets (technology related development and software) is provided on straight line method based on management's estimated useful life of 5 years. Amortization expense is charged on pro-rata basis for assets purchased / sold during the year. The appropriateness of the amortization period and the amortization method is reviewed at each financial year end.

(ii) **Intangible assets under development:**

Intangible assets not ready for the intended use on the date of Balance Sheet are disclosed as 'Intangible assets under development'.

**De-recognition:** Intangible assets are de-recognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset is recognised in other income/expense in the statement of profit and loss in the year the asset is de-recognised.

### 2.9 Investment Property:

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is recognised using straight line method in same line as mentioned in para 2.7 above.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

### 2.10 Assets held for sale:

Assets held for sale comprised house and land properties that were held as collateral against loans granted to customers. Upon default in repayment by the customers, the Company took physical and legal possession of these properties. The Management intended to dispose of these properties through sale and conducted regular auctions for this purpose. Accordingly, these assets were classified as held for sale as their carrying amount was expected to be recovered principally through sale rather than through continued use. The properties were sold during the financial year.

### 2.11 Impairment of non-financial assets

The Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognized in profit or loss.

### 2.12 Employee benefits:

#### (i) Short-term employee benefits:

Employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Benefits such as salaries, reimbursements and bonus etc., are recognized in the Statement of Profit and Loss in the period in which the employee renders the services.

#### (ii) Post-employment benefits:

The Company operates the following post-employment schemes:

##### (a) Defined contribution plans:

The Company's employee provident fund scheme and employees' state insurance is a defined contribution plan. A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions and will have no obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the Statement of Profit and Loss in the year when the employee renders the related service.

##### (b) Defined benefit plans:

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Code on Social Security, 2020'. The company operates a gratuity trust for this purpose. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

Re-measurement, comprising of actuarial gains and losses and the return on plan assets (excluding

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

(iii) Long term employee benefits:

Benefits under compensated absences constitute other employee benefits. Employee entitlements to annual leave are recognized when they accrue to the eligible employees. An accrual is made for the estimated liability for annual leave as a result of services provided by the eligible employees up to the Balance Sheet date. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Expenses are recognized immediately in the Statement of Profit and Loss.

### 2.13 Employees Stock Option Scheme:

Equity-settled share based payments to employees are measured at fair value of the equity instruments at the grant date in accordance with Ind AS 102, "Share based payments". Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 48.1 & 48.2.

The fair value determined at the grant date of the equity-settled share based payments is expected over the vesting period using the graded vesting method, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company reviews its estimate of the number of equity instruments expected to vest. The impact of the original estimates, if any, is recognized in the profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the "Share Option Outstanding Account" in Other Equity.

The employees of the Company have also been granted stock options in respect of the shares of OFB Tech Limited (formerly known as OFB Tech Private Limited), the holding company. The Company has entered into repayment arrangement for the provision of share based payments with the parent company for the ESOP granted and reimburse to the parent company as and when expenses recognised on the basis of grant date fair valuation.

### 2.14 Investment in subsidiaries:

The investment in subsidiaries are carried at cost as per Ind AS 27. Investment carried at cost is tested for impairment as per Ind AS 36. An investor, regardless of the nature of its involvement with an entity (the investee), shall determine whether it is a parent by assessing whether it controls the investee. An investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has ability to affect those returns through its power over the investee. Thus, an investor controls an investee if and only if the investor has all the followings:

- (a) Power over the investee;
- (b) Exposure, or rights, to variable returns from its involvement with the investee and
- (c) The ability to use its power over the investee to affect the amount of the investor's returns

On disposal of investment, the difference between its carrying amount the net disposal proceeds is charged or credited to the Statement of Profit and Loss.

### 2.15 Financial instruments:

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

A financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

### (i) Financial assets

#### (a) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets. (refer note no.49).

#### (b) Debt instruments at amortised cost

The Company assesses the classification and measurement of a financial asset based on the contractual cash flow characteristics of the asset and the Company's business model for managing the asset.

For an asset to be classified and measured at amortised cost, its contractual terms should give rise to cash flows that are solely payments of principal and interest on the principal outstanding (SPPI).

The Company considers all relevant information available when making the business model assessment. However, this assessment is not performed on the basis of scenarios that the Company does not reasonably expect to occur, such as so-called 'worst case' or 'stress case' scenarios. The Company takes into account all relevant evidence available such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed; and
- how managers of the business are compensated (e.g. whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

The Company reassess its business models each reporting period to determine whether the business models have changed since the preceding period. For the current and prior reporting period the Company has not identified a change in its business models.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

When a debt instrument measured at FVTOCI is derecognised, the cumulative gain/loss previously recognised in OCI is reclassified from equity to profit or loss. In contrast, for an equity investment designated as measured at FVTOCI, the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to profit or loss but transferred within equity. Debt instruments that are subsequently measured at amortised cost or at FVTOCI are subject to impairment

### (c) Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

### (d) De-recognition

A financial asset (or, where applicable, a part of a financial asset) is primarily de-recognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
- either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.
- The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

### (e) Transfer of Loan Exposure

The Company transfers loans through securitisation and direct assignment transactions. In accordance with Ind AS 109 the transferred loans are derecognised and gains/losses are accounted for, only if the Company transfers substantially all its risks and rewards specified in the underlying assigned loan contracts.

#### (a) Direct Assignment

Transfer of loan exposure under Direct Assignment results in immediate separation from the risks and rewards associated with such loans to the extent that the economic interest has been transferred. The transferee gets an unfettered right to transfer or otherwise dispose of such loans free of any restraining conditions to the extent of economic interest transferred to them. Profit or loss on such loans is recognised in the statement of profit and loss for the period in which such loans have been transferred.

#### (b) Securitization transactions

In accordance with Ind AS 109, in case of securitization transactions, the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

### (ii) Financial Liabilities:

- a. Financial liabilities, including derivatives, which are designated for measurement at FVTPL are subsequently measured at fair value.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

All other financial liabilities including loans and borrowings are measured at amortised cost using Effective Interest Rate (EIR) method.

- b. A financial liability is derecognised when the related obligation expires or is discharged or cancelled.

### (iii) Instruments Entirely Equity in nature

The classification of a financial instruments or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument, is done in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument. An instrument is classified as an equity instrument or an instrument entirely equity in nature when the said instrument has no other financial instrument or contract that has:

- total cash flows based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the entity (excluding any effects of such instrument or contract) and
- the effect of substantially restricting or fixing the residual return to the instrument holders.

Instruments entirely equity in nature, are presented as a separate line item on the face of the Balance Sheet under 'Equity' after 'Equity Share Capital' but before 'Other Equity'.

### (iv) Equity Instruments

An equity instruments is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the face value and proceeds received in excess of the face value are recognised as securities premium.

## 2.16 Fair value measurement

The Company measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

When measuring the fair value of an asset or a liability, the Company uses observable market data to the extent possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company measures financial instruments, such as, investments, at fair value on each reporting date. In addition, the fair value of financial instruments measured at amortized cost and FVTPL is disclosed in Note 47.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

### 2.17 Impairment:

The Company recognises loss allowances for expected credit losses (ECLs) on the following financial instruments that are not measured at FVTPL:

- Loans and advances to customers;
- Debt investment securities;
- Trade and other receivable;
- Irrevocable loan commitments issued; and
- Financial guarantee contracts issued.

#### Credit-impaired financial assets

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;

It may not be possible to identify a single discrete event-instead, the combined effect of several events may have caused financial assets to become credit-impaired.

#### Significant increase in credit risk

The Company monitors all financial assets and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Company's historical experience and expert credit assessment.

Given that a significant increase in credit risk since initial recognition is a relative measure, a given change, in absolute terms, in the Probability of Default will be more significant for a financial instrument with a lower initial PD than compared to a financial instrument with a higher PD.

#### Definition of default

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

The Company considers the following as constituting an event of default:

- The borrower is past due more than 90 days on any material credit obligation to the Company; or
- The borrower is unlikely to pay its credit obligations to the Company in full.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

The definition of default is appropriately tailored to reflect different characteristics of different types of assets.

When assessing if the borrowers is unlikely to pay its credit obligations, the Company takes into account both qualitative and quantitative indicators. The information assessed depends on the type of the asset, for example in corporate lending a qualitative indicator used is the admittance of bankruptcy petition by National Company Law Tribunal. Quantitative indicators, such as overdue status and non-payment on another obligation of the same counterparty are key inputs in this analysis. The Company uses a variety of sources of information to assess default which are either developed internally or obtained from external sources. The definition of default is applied consistently to all financial instruments unless information becomes available that demonstrates that another default definition is more appropriate for a particular financial instrument.

### Expected credit loss model

Basis the above-defined criteria, the Company considering the short-term nature of the majority of underlying portfolio of financial assets, calculates ECL on a collective basis as per the ECL model.

The expected credit loss is a product of exposure at default ('EAD'), probability of default ('PD') and loss given default ('LGD'). Accordingly, the financial assets have been segmented into three stages based on the risk profiles. The three stages reflect the general pattern of credit deterioration of a financial asset. The Company categories financial assets at the reporting date into stages based on the days past due ('DPD') status as under:

- Stage 1: Low credit risk, i.e. 0 to 30 days past due
- Stage 2: Significant increase in credit risk, i.e. 31 to 90 days past due
- Stage 3: Impaired assets, i.e. more than 90 days past due

LGD estimate of loss from a transaction given that a default occurs. PD is defined as the probability of whether the borrower will default on their obligation in the future. For assets which are in Stage 1, a 12-month PD is required. For Stage 2 assets a lifetime PD is required while Stage 3 assets are considered to have a 100% PD. EAD represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Company.

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are made as temporary adjustments. The Company regularly reviews its models in the context of actual loss experience and make adjustments when such differences are significantly material.

### Presentation of allowance for ECL in the Balance Sheet:

Loss allowances for ECL are presented in the statement of financial position as follows:

- for financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- for debt instruments measured at FVTOCI: no loss allowance is recognised in Balance Sheet as the carrying amount is at fair value.

### 2.18 Write off:

Financial assets are written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when, as at the reporting date, financial asset is overdue for 12 months or more and the Company determines that the debtor does not have assets or source of income that could generate sufficient cash flows to repay the amounts subject to the write off.

Any subsequent recoveries are credited to impairment on financial instrument on statement of profit and loss.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

### 2.19 Foreign Currency Transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates prevailing on the date of the transaction. Exchange differences arising due to the differences in the exchange rate between the transaction date and the date of settlement of any monetary items are taken to the statement of profit and loss. Monetary assets and monetary liabilities denominated in foreign currency are translated at the exchange rate prevalent at the date of the Balance Sheet and resultant gain/ loss is taken to the Statement of Profit and Loss.

### 2.20 Derivative financial instruments

The Company enters into derivative financial instruments to manage its exposure to interest rate risk and foreign exchange rate risk. Derivatives held include foreign exchange forward contracts, interest rate swaps and cross currency interest rate swaps. Derivatives are initially recognised at fair value at the date of a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain/loss is recognised in the statement of profit and loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedge relationship. The Company designates certain derivatives as hedges of highly probable forecast transactions (cash flow hedges). A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability.

#### Hedge accounting

The Company makes use of derivative instruments to manage exposures to interest rate and foreign currency. In order to manage particular risks, the Company applies hedge accounting for transactions that meet specific criteria. At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging / economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the Company would assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

#### Cash Flow Hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and could affect profit and loss. For designated and qualifying cash flow hedges, the effective portion of the cumulative gain or loss on the hedging instrument is initially recognised directly in OCI within equity (cash flow hedge reserve). The ineffective portion of the gain or loss on the hedging instrument is recognised immediately in Finance Cost in the statement of profit and loss. When the hedged cash flow affects the statement of profit and loss, the effective portion of the gain or loss on the hedging instrument is recorded in the corresponding income or expense line of the statement of profit and loss. When a hedging instrument expires, is sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in OCI at that time remains in OCI and is recognised when the hedged forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in OCI is immediately transferred to the statement of profit and loss.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

### 2.21 Cash and cash equivalents:

Cash and bank balances also include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

### 2.22 Borrowing costs:

Borrowing costs include interest expense calculated using the effective interest method, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs. Borrowing costs net of any investment income from the temporary investment of related borrowings, that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### 2.23 Taxation:

#### Current Tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with Income tax Act, 1961, Income Computation and Disclosure Standards and other applicable tax laws. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date.

#### Deferred Tax:

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

### 2.24 (i) Provisions, contingent liabilities and contingent assets:

Provisions are recognised only when:

- i. there is a present obligation (legal or constructive) as a result of a past event; and
- ii. it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- iii. a reliable estimate can be made of the amount of the obligation

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised in the financial statements. Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

### (ii) Commitments:

Commitments are future liabilities for contractual expenditure, classified and disclose as follows:

- a. Estimated amount of contracts remaining to be executed on account of capital account and not provided for.
- b. Uncalled liability on shares and other investments partly paid; and
- c. Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of the management.

### 2.25 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit/(loss) before tax for the year, is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions.

### 2.26 Lease:

The Company, as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the company uses incremental borrowing rate. For short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

### 2.27 Effective Interest Rate:

The Company's EIR methodology recognizes interest income/ expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

### 2.28 Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

### 2.29 Business Combination:

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory.

Business Combination involving entities or businesses under common control shall be accounted for using the pooling of interest method based on the predecessor values retrospectively for all periods presented.

The pooling of interest method is considered to involve the following:

- i. The assets and liabilities of the combining entities are reflected at their carrying amounts.
- ii. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.
- iii. The components of other equity of the acquired companies are added to the same components within other equity except that any share capital and investments in the books of the acquiring entity is cancelled.
- iv. The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information shall be restated only from that date.

### 2.30 Material accounting estimates, judgements and assumptions:

The preparation of the Company's financial statements requires Management to make use of estimates, judgements and assumptions. These estimates, judgments and assumptions affect the application of accounting policies, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as at the reporting date and the reported amount of revenues and expenses during the year. Accounting estimates could change from period to period. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from the Management's estimates and judgements.

Material accounting estimates and judgements are used in various line items in the financial statements are as below:

- Business model assessment [refer note no. 2.15]

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

- Impairment of financial assets [refer note no. 2.17]
- Provisions and contingent liabilities [refer note no.2.24]
- Fair value of financial instruments [refer note no.2.16]

### 2.31 Operating Cycle:

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current

### 2.32 Recent accounting pronouncement:

The Ministry of Corporate Affairs vide notification dated May 7, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after

April 1, 2025:

- Ind AS 21, The Effects of Changes in Foreign Exchange Rates. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any impact in its financial statements.
- Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.
- Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any impact in its financial statements.
- Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately – The Company is not within the scope of OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

|---------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Interest rate risk</b>                         | The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in standalone financial statements).                                                           |
| <b>Liquidity risk</b>                             | This is the risk that the Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.                                                                                                           |
| <b>Salary escalation risk</b>                     | The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability. |
| <b>Demographic risk</b>                           | The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.                                                                                                                                            |
| <b>Regulatory Risk</b>                            | Gratuity benefit is paid in accordance with the requirements of Chapter V (Gratuity of the Code on Social Security, 2020 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).                                                 |
| <b>Asset Liability Mismatching or Market Risk</b> | The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.                                                                                                                                                                                                    |
| <b>Investment Risk</b>                            | The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.                                                                                                                                                                                                                                    |

## Notes forming part of the standalone financial statements for the year ended 31 March 2026

(All amounts in Lakh of ₹ unless otherwise stated)

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out as at 31 March 2026 by Ms. Vichitra Malhotra (FIAI M.No. 10336), Fellow of the Institute of Actuaries of India. ### Sensitivity Analysis

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There is no change in the method of valuation for the prior period.

Provision for unfunded Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Indian Accounting Standard (Ind AS) 19 on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in Statement of Profit and Loss for Compensated absences.

|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Interest rate risk     | The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).                                                                    |
| Liquidity risk         | This is the risk that the Company is not able to meet the short-term benefit payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.                                                                                                          |
| Salary escalation risk | The present value of the above benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability. |
| Demographic risk       | The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.                                                                                                                                          |

- 42.2** The Government of India has consolidated 29 existing labour legislations into a unified framework comprising four labour codes, viz. the Code on Wages, 2019, the Code on Social Security, 2020, the Industrial Relations Code, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as the "Codes"). The Codes have been made effective from 21 November 2025. The Ministry of Labour & Employment has published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations.

The incremental impact of these changes, assessed by the Company on the basis of the information available, is not material and has been recognised under Employee Benefits in the financial statement of the Company for the year ended 31 March 2026. Once the Central / State Rules are notified by the Government on all aspects of the Codes, the Company will evaluate the impact, if any, on the measurement of employee benefits and would provide appropriate accounting treatment.

### 46.1 Capital management

The capital management objectives of the Company are:

- to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios
- to ensure the ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of debt less cash and cash equivalents and other bank balances as presented in the balance sheet.

Management assesses the capital requirements of the Company in order to maintain an efficient overall financing structure. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return on capital to shareholders, issue new shares, or sell assets to reduce debt. The Company has a target gearing ratio of 3.00 to 3.50 determined as a proportion of net debt to total equity.

### 46.2 Regulatory capital

As contained in RBI Notification - RBI/DOR/2025-26/345 DOR.CAP.REC.264/21-01-002/2025-26, Reserve Bank of India (Non-Banking Financial Companies - Prudential Norms on Capital Adequacy) Directions, 2025' dated 28 November 2025, the Company is required to maintain a capital ratio consisting of Tier I and Tier II capital not less than 15% of its aggregate risk weighted assets on-balance sheet and of risk adjusted value of off- balance sheet items. Out of this, Tier I capital shall not be less than 10%. The Board of Directors regularly monitors the maintenance of prescribed levels of Capital Risk Adjusted Ratio (CRAR).

Capital Adequacy Ratio (CAR) and other key financial parameters as at 31 March 2026 and 31 March 2025 of the Company are as under:

| Particulars                      | As at 31 March 2026 | As at 31 March 2025 |

### 47 Financial instruments

#### 47.1 Financial instruments by category and fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

(a) recognised and measured at fair value and

(b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the Indian accounting standard. An explanation of each level follows underneath the table.

### 47.2 Valuation framework

The Company measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company measures fair values using fair value hierarchy, which reflects the significance of the inputs used in making the measurements. Refer note 2.16 for details on fair value measurement and hierarchy.

The Company uses suitable valuation models to determine the fair value of common and simple financial instruments, that use only observable market data and require little management judgement and estimation.

**Loans:** The fair value of loan and advances are estimated by discounted cash flow models and using Effective Interest Rate (EIR) method. Fair value is then reduced by the impairment loss allowance on loans which is already calculated incorporating probability of default and loss given defaults.

**Debt securities, borrowings (other than debt securities):** The fair values of the Company's borrowings and other debt securities are calculated based on a discounted cash flow model and for the purpose of disclosures debt securities are classified under Level 2 and borrowings (other than debt securities) are classified under Level 3 and are measured at amortised cost using Effective Interest Rate (EIR) method. The discount rates were based on the available interest rates in the market.

**Investments:** Investment in debt securities is recorded at discounted cash flow models and using Effective Interest Rate (EIR) method. Fair value in other Investment is based on the information available from external sources such as market-observable including secondary market prices or NAV and where no data is available, it is estimated using prevailing rate on balance sheet date. Management believes that the carrying value of the investments approximates the fair value.

There were no transfers between levels during the year.

### 49 Financial risk management

#### i) Risk Management

Risk is an integral part of the Company's business and sound risk management is critical to the success. As a non-banking financial company, the Company is exposed to risks that are particular to its lending and the environment within which it operates and primarily includes credit, liquidity and market risks. The Company's Board of directors has overall responsibility for the establishment and oversight of the risk management framework. In accordance with the RBI guidelines to enable NBFCs to adopt best practices and greater transparency in their operations, the Board of Directors of the Company has constituted a Asset Liability Management Committee (ALCO) and Risk Management Committee. Risk Management Committee reviews risk management in relation to various integrated risks of the Company. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

#### A) Credit risk

Credit risk arises from loans, cash and cash equivalents, bank balance other than cash and cash equivalents, investments and other financial assets. Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company has established various internal risk management process to provide early identification of possible changes in the creditworthiness of counterparties. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions. The carrying amounts of financial assets represent the maximum credit risk exposure.

Credit risk arises from loans financing, cash and cash equivalents, investments carried at amortised cost and deposits with banks and financial institutions, as shown below:

The Company splits its exposure into smaller homogeneous portfolios, based on shared credit risk characteristics, as described below in the following order:

- Secured/unsecured i.e. based on whether the loans are secured
- Nature of security i.e. the nature of the security if the loans are determined to be secured
- Nature of loan i.e. based on the nature of loan
- Nature of Segment Classification

The credit risk management policy of the Company seeks to have following controls and key metrics that allows credit risks to be identified, assessed, monitored and reported in a timely and efficient manner in compliance with regulatory requirements.

- Standardise the process of identifying new risks and designing appropriate controls for these risks
- Maintain an appropriate credit administration and loan
- Establish metrics for portfolio monitoring
- Minimise losses due to defaults or untimely payments by borrowers
- Design appropriate credit risk mitigation techniques

### Expected credit loss for loans

In order to mitigate the impact of credit risk in the future profitability, the Company makes reserves basis the expected credit loss (ECL) model for the outstanding loans as balance sheet date. In addition to ECL output, the Company has taken conservative view through specific provisions.

Refer Accounting Policy (note no. 2.17)

### Collateral and other credit enhancements

The loan portfolio of the Company has both secured and unsecured loans and they vary with the type of funding. Basis the past history of receipts against collateral, the overall ECL for the secured portfolio is net of collateral value.

### Quantitative and qualitative factors considered along with quantification i.r.t loss rates

Impact of specific risk factors was also taken into account while staging of accounts and computation of PD. As part of its assessment of forward-looking information, the Company also studied the potential relationship between through-the-cycle ("TTC") PDs, systemic default trends and selected macroeconomic variables. The macro-economic variables were regressed using a logical regression against systemic default ratio out of the impact of macro-economic variables on the system wide default rates. These scenarios reflect a baseline, upturn and downturn in economic activity basis which ECL requirements could vary. The outcomes of this exercise were reviewed for any possible changes in the PD rates.

### Write off policy

Refer Accounting Policy (Note No. 2.18)

### B) Liquidity risk

Liquidity risk arises as Company has contractual financial liabilities that is required to be serviced and redeemed as per committed timelines and in the business of lending where money is required for the disbursement and creation of financial assets to address the going concern of Company. Liquidity risk management is imperative to Company as this allows covering the core expenses, market investment / creation of financial assets, timely repayment of debt commitments and continuing with their operations.

Management of the Company monitors forecast of liquidity position and cash and cash equivalents on the basis of expected cash flows. The Asset Liability Management Policy aims to align market risk management with overall strategic objectives, articulate current interest rate view and determine pricing, mix and maturity profile of assets and liabilities. The asset liability management policy involves preparation and analysis of liquidity gap reports and ensuring preventive and corrective measures. It also addresses the interest rate risk by providing for duration gap analysis and control by providing limits to the gaps.

The Companies aim to maintain the level of its cash equivalents, un-utilised borrowing lines and cash inflow at an amount in excess of expected cash outflows on financial liabilities over the next one year. At 31 March 2026, the net of expected cash inflows and outflows within 12 months are ₹ 3,41,496.89 lakhs (31 March 2025: ₹ 3,22,310.92 lakhs). Refer note 50 for Maturity analysis of assets and liabilities and note 53 (VIII) for asset liability management (ALM).

### C) Market Risk

Market risk is the risk that the fair value or future cash flow of financial instrument will fluctuate due to changes in market variables such as interest rates, foreign exchange rates etc. The objective of market risk management is to manage and control market risk exposure within acceptable parameters while maximising the return.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's variable interest rate lending and borrowings. Further, whenever there is a change in borrowing interest rate for the Company, necessary change is reflected in the lending interest rates over the timeline in order to mitigate the risk of change in interest rates of borrowings.

### (vi) Institutional set-up for Liquidity Risk Management

The Board of Directors of the Company has an overall responsibility and oversight for the management of all the risks, including liquidity risk, to which the Company is exposed. The Board approves the governance structure, policies, strategy and the risk limits for the management of liquidity risk. The Board of Directors approves the constitution of the Risk Management Committee (RMC) for the effective supervision, evaluation, monitoring and review of various aspects and types of risks, including liquidity risk, faced by the Company. Further, the Board of Directors also approves constitution of Asset Liability Committee (ALCO), which functions as the strategic decision-making body for the asset-liability management of the Company from risk-return perspective and within the risk appetite and guard-rails approved by the Board. The main objective of ALCO is to assist the Board and RMC in effective discharge of the responsibilities of asset-liability management, market risk management, liquidity and interest rate risk management and also to ensure adherence to risk tolerance/limits set up by the Board. ALCO provides guidance and directions in terms of interest rate, liquidity, funding sources, and investment of surplus funds. ALCO meetings are held quarterly or more frequently as the Committee may determine to adequately fulfil the responsibilities outlined in the charter. The minutes of ALCO meetings are placed before the Board of Directors in its next meeting for its perusal/approval/ratification. Further Company has board approved Internal Capital Adequacy Assessment Process (ICAAP) policy in place as per RBI Master Directions. During the year Company has done qualitative and quantitative ICAAP assessment in line with the guidelines.

# Independent Auditor's Report

To the members of OXYZO Financial Services Limited  
(Formerly known OXYZO Financial Services private Limited)

## Report on the Audit of the Consolidated Financial Statements

### Opinion

We have audited the accompanying consolidated financial statements of OXYZO Financial Services Limited (formerly known as OXYZO Financial Services Private Limited) (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31<sup>st</sup> March, 2026, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flow, for the year then ended, notes to consolidated financial statements including material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries referred in the other matter paragraph below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards Prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (Ind AS) and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2026, and their consolidated profit including other comprehensive income, the consolidated statement of changes in equity and its consolidated cash flows for the year ended on that date. Basis for Opinion.

### Basis for Opinion

We conducted our audit of consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their report referred under the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### Emphasis of matter

We draw your attention to Note no. 64 to the consolidated financial statements in respect of the Scheme of Arrangement (the "Scheme") between the Holding Company and its subsidiary namely, Zfirst Technologies Private Limited ('Amalgamating Company') to amalgamate the amalgamating company in Holding Company, and upon completion of amalgamation, slump sale of the loan facilitating services business of amalgamated company to its wholly owned subsidiary namely, Ziel Financial Technologies Private Limited ('Transferee Company') from the appointed date, i.e., 1st April 2023. The National Company Law Tribunal, New Delhi vide its order dated 13<sup>th</sup> February, 2026 approved the scheme and same become effective from 7<sup>th</sup> March, 2026 upon filing of the certified copy of the said Order with the Registrar of Companies. The accounting treatment pursuant to the Scheme has been given effect to from the date required under Ind AS 103 - Business Combinations, which is the beginning of the preceding period presented i.e. 1st April, 2024. Accordingly, the figures for the year ended 31<sup>st</sup> March, 2025 have been restated to give effect to the aforesaid Scheme. Our opinion is not modified in respect of this matter.

### Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the financial year ended 31<sup>st</sup> March 2026. These matters were addressed in the context of our audit of

the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report:-

## Emphasis of matter

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this Auditors' Report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

## Management's Responsibility and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in Equity of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the holding company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit,

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

## Other Matters

We did not audit the financial statements and other financial information of four subsidiaries whose financial statements reflect total assets of Rs. 14,1L3.18 lakhs as at 31st March 2026, total revenue of Rs. 4,593.39 lakhs, total net profit after tax of Rs. 1,136.13 lakhs, total comprehensive income of Rs. 992.70 lakhs and net inflows of Rs. 10.21 lakhs for the year ended on that date, as considered in consolidated financial statements. These Financial Statements/Financial Information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of subsection (3) of the Section 143 of the Act, in so far as it relate to the aforesaid subsidiaries, is solely based on the reports of the other auditors.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

## Report on Other Legal and Regulatory Requirements

## ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

**( Referred to in paragraph (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date on the consolidated financial statements of OXYZO Financial Services Limited (formerly known as OXYZO Financial Services Private Limited) for the year ended 31st March 2026)**

### **Report on the Internal Financial Controls with respect to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

In conjunction with our Audit of Consolidated Financial Statements of OXYZO Financial Services Limited (formerly known as OXYZO Financial Services Private Limited) (hereinafter referred to as “Holding Company”) as of and for the year ended March 31, 2026, we have audited internal financial controls with respect to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”) which are companies incorporated in India, as of that date.

#### **Management’s Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary companies, are responsible for establishing and maintaining internal financial controls based on the internal control with respect to consolidated financial statements criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the ‘Guidance Note’) issued by the Institute of Chartered Accountants of India (the ‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company’s business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Holding Company’s internal financial control with respect to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of the internal control, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control with respect to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control with respect to consolidated financial statements and their operating effectiveness. Our audit of internal financial control over financial reporting includes obtaining an understanding of internal financial control with respect to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Internal financial control with respect to consolidated financial statements.

#### **Meaning of Internal Financial Controls with respect to Consolidated Financial Statements**

A Company’s internal financial control with respect to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail,

accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with Generally Accepted Accounting Principles, and that receipts and expenditures of the companies are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements..

#### **Inherent limitations of Internal Financial Controls with respect to Consolidated Financial Statements**

Because of the inherent limitations of internal financial controls with respect to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with respect to consolidated financial statements to future periods are subject to the risk that the internal financial control with respect to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in Other Matters paragraph below, the Holding Company and its Subsidiary companies, have maintained, in all material respects, an adequate internal financial controls system with respect to consolidated financial statements and such internal financial controls with respect to consolidated financial statements were operating effectively as at 31st March 2026, based on the internal control with respect to consolidated financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

#### **Other Matters**

Our report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with respect to consolidated financial statements of the Holding Company in so far as it relates to 4 numbers subsidiary companies, is based solely on the corresponding reports of respective auditors of such subsidiaries.

Our report is not modified in respect of above matters.

### Principal of Consolidation:

The consolidated financial statements of the Holding Company for the year ended 31 March 2026 comprise the Holding Company and its subsidiaries (together referred to as "Group"). The consolidated financial statement includes consolidated balance sheet, consolidated statement of profit & loss, consolidated cash flow statement, consolidated statement of changes in equity, and consolidated notes. The consolidated financial statements have been prepared on the following basis:

- a. The financial statements of the subsidiary companies used in the consolidation are drawn upto the same reporting date as that of the Holding Company i.e., 31 March, 2026.
- b. The financial statement of the Holding Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, Income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealised profit or losses, unless cost cannot be recovered.
- c. Goodwill arising on acquisition is recognised as an asset and measured at cost and is tested for impairment on annual basis, being the excess of the consideration transferred in the business combination over the Group's interest in the net fair value of the identifiable assets acquired, liabilities assumed. Where the fair value of the identifiable assets and liabilities exceed the cost of acquisition, the excess is recognised as capital reserve on consolidation end shown under the head 'Reserves & Surplus, in the consolidated financial statements.
- d. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the Group's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net asset. The choice of measurement basis is made on an acquisition by-acquisition basis. Subsequent to acquisition, the carrying value of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if it results in the non-controlling interests having a deficit balance.
- e. As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Holding Company's separate financial statements.

### Basis of preparation:

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period and derivative financial instruments. The Group generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Group offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS specifically unless they are material in nature.

### Functional and presentation currency:

These consolidated financial statements are prepared in Indian Rupees (INR), which is the holding Company's functional currency. All financial information presented in INR has been rounded to the nearest lakhs and two decimals thereof, except as stated otherwise.

### Presentation of financial statements:

The Balance Sheet, the Statement of Change in Equity and the Statement of Profit and Loss is presented in the format prescribed under Division III of Schedule III of the Act, as amended from time to time, for Non-Banking Financial Companies ("NBFCs"), that are required to comply with Ind AS. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows".

The disclosure requirements with respect to items in Balance Sheet, the Statement of Change in Equity and the Statement of Profit and Loss is presented in the format prescribed under Division III of Schedule III of the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Amounts in the financial statements are presented in Indian Rupees in Lakhs rounded off to two decimal places as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupee to two decimal places.

### 2.2 Revenue recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured and there exists reasonable certainty of its recovery. Revenue is measured at the fair value of the consideration received or receivable as reduced for estimated customer credits and other similar allowances.

Incomes are recognised net of the goods and services tax, wherever applicable.

#### i. Interest income:

Interest income is recognised in the Statement of Profit and Loss and for all financial instruments (except for those classified as held for trading or those measured or designated as at fair value through profit or loss (FVTPL) and at fair value through other comprehensive income (OCI)) is measured using the effective interest rate method (EIR).

The calculation of the EIR includes all fees paid or received between parties to the contract that are incremental and directly attributable to the financial assets at amortised cost, transaction costs, and all other premiums or discounts and it represents a rate that exactly discounts estimated future cash payments / receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability. For financial assets at FVTPL transaction costs are recognised in profit or loss at initial recognition.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for expected credit losses (ECLs)). For financial assets originated or purchased credit-impaired (POCI) the EIR reflects the ECLs in determining the future cash flows expected to be received from the financial asset.

Delayed payment interest (penal interest and the like) levied on customers for delay in repayments/non-payment of contractual cashflows is recognised on realization basis.

### ii. Other revenue from operation

The Group recognizes revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Group identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognizes revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

#### a. Fee and commission income:

Revenue (other than for those items to which IND AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. IND AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

Fee and commission income includes fees other than those that are an integral part of EIR. The fees included in the Group's statement of profit and loss includes service and administration charges towards rendering of additional services to its loan customers and other fees charged for servicing of loans, fees charged on account of loan commitments and loan advisory fees.

Foreclosure charges are collected from loan customers for early payment / closure of loan and are recognised on realisation.

#### b. Net gain on fair value change:

The Group recognizes gains on fair value change of financial assets measured at FVTPL and realized gains on derecognition of financial assets measured at FVTPL on net basis. However, Net gain/loss on derecognition of financial assets measured at amortised cost is presented separately under the respective head in the statement of profit and loss.

#### c. Income from Direct Assignment:

Gains arising out of direct assignments comprise of the difference between the interest on the loan portfolio and the applicable rate at which the direct assignment is entered into with the assignee, also known as the right of the excess interest spread (EIS). The future EIS basis the scheduled behavioral cash flows on execution of the transactions, discounted at the applicable rate entered with the assignee is recorded upfront in the statement of profit and loss.

#### d. Other operational revenue:

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

### iii. Other income:

The Group recognizes revenue from contracts with customers (other than financial assets to which Ind AS 109 'Financial Instruments' is applicable) based on a comprehensive assessment model as set out in Ind AS 115 'Revenue from contracts with customers'. The Group identifies contract(s) with a customer and its performance obligations under the contract, determines the transaction price and its allocation to the performance obligations in the contract and recognizes revenue only on satisfactory completion of performance obligations. Revenue is measured at fair value of the consideration received or receivable.

## 2.3 Expenditures:

### i. Finance costs:

Finance costs represent interest expense and transaction cost recognised by applying the Effective Interest Rate (EIR) to the gross carrying amount of financial liabilities other than those classified at FVTPL.

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

### ii. Other expenses:

Other expenses are recognized on accrual basis and provisions are made for all known losses and liabilities. The Group has also entered into a shared services arrangement for sharing of common resources and facilities with group companies. The cost allocated to the Group under such cost sharing arrangement are included under the respective account head, as applicable. The cost allocated to other entity under this arrangement is reduced from concerned account head and shown as recoverable from concerned entity.

### 2.4 Property, plant and equipment (PPE):

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment, if any consistent with the criteria specified in Ind AS 16 'Property, plant and equipment'. Cost includes all direct cost related to the acquisition of PPE and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy.

Depreciation is recognised using straight line method so as to write off the cost of the assets (other than freehold land)) less their residual values over their useful lives specified in Schedule II to the Companies Act, 2013, or in case of assets where the useful life was determined by technical evaluation, over the useful life so determined. Depreciation method is reviewed at each financial year end to reflect expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end with the effect of any change in the estimates of useful life/ residual value is accounted on prospective basis.

Useful life as used by the Group as indicated in Schedule II are listed below:

- Computers and Laptops- 3 Years
- Office Equipment- 5 Years
- Furniture and fixtures- 10 Years
- Leasehold property – 5-9 years<sup>^</sup>

Depreciation for additions to/deductions from, owned assets is calculated pro rata to the period of use. Depreciation charge for impaired assets is adjusted in future periods in such a manner that the revised carrying amount of the asset is allocated over its remaining useful life.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any

gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in profit or loss.

<sup>^</sup> Leasehold improvements are depreciated on a straight-line basis over the remaining period of the lease or estimated useful life of the assets, whichever is lower.

### 2.5 Intangible assets including Intangible assets under development:

#### i) Technology related development cost:

Technology related development costs incurred by the Group are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes expenses incurred during the application development stage. The costs related to planning and post implementation phases are expensed as incurred.

Expenditure on research activities are recognized in the statement of Profit and Loss as incurred. Development activities relate to production of new or substantially improved products and processes. Development expenditure is capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. The expenditure capitalized includes direct labour and overhead costs that are directly attributable to preparing the asset for its intended use.

#### ii) Software:

Software acquired by the Group are measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes any directly attributable expenses necessary to make the asset ready for use.

**Subsequent expenditure:** Subsequent expenditure is recognized as an increase in the carrying amount of the assets are carried when it is probable that future economic benefit deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

**Amortization expense:** Amortization expense on intangible assets (technology related development and software) is provided on straight line method based on management's estimated useful life of 5 years. Amortization expense is charged on pro-rata basis for assets purchased / sold during the year. The appropriateness of the amortization period and the amortization method is reviewed at each financial year end.

#### iii) Intangible assets under development:

Intangible assets not ready for the intended use on the date of Balance Sheet are disclosed as 'Intangible assets

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

under development'

**De-recognition:** Intangible assets are de-recognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset is recognised in other income/expense in the statement of profit and loss in the year the asset is de-recognised.

### 2.6 Investment Property:

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is recognised using straight line method in same line as mentioned in para 2.4 above.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

### 2.7 Assets held for sale:

Assets held for sale comprised of house and land properties that were held as collateral against loans granted to customers. Upon default in repayment by the customers, the Holding Company took physical and legal possession of these properties. The Management intended to dispose of these properties through sale and conducted regular auctions for this purpose. Accordingly, these assets were classified as held for sale as their carrying amount was expected to be recovered principally through sale rather than through continued use. The properties were sold during the financial year.

### 2.8 Impairment of non-financial assets

The Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent

market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognized in profit or loss.

### 2.9 Employee benefits:

#### i. Short-term employee benefits:

Employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service. Benefits such as salaries, reimbursements and bonus etc., are recognized in the Statement of Profit and Loss in the period in which the employee renders the services.

#### ii. Post-employment benefits:

The Group operates the following post-employment schemes:

##### (a) Defined contribution plans:

The Group's employee provident fund scheme and employees' state insurance is a defined contribution plan. A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions and will have no obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the Statement of Profit and Loss in the year when the employee renders the related service.

##### (b) Defined benefit plans:

The Group provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Code on Social Security, 2020'. The Holding Company operates a gratuity trust for this purpose. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, attrition rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed annually.

Re-measurement, comprising of actuarial gains and losses and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit and loss in subsequent periods.

### iii. Long term employee benefits:

Benefits under compensated absences constitute other employee benefits. Employee entitlements to annual leave are recognized when they accrue to the eligible employees. An accrual is made for the estimated liability for annual leave as a result of services provided by the eligible employees up to the Balance Sheet date. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

Expenses are recognized immediately in the Statement of Profit and Loss.

### 2.10 Employees Stock Option Scheme:

Equity-settled share based payments to employees are measured at fair value of the equity instruments at the grant date in accordance with Ind AS 102, "Share based payments". Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 52.1 & 52.2.

The fair value determined at the grant date of the equity-settled share based payments is expected over the vesting period using the graded vesting method, based on the Group's estimate of equity instruments that will eventually

vest, with a corresponding increase in equity. At the end of each reporting period, the Group reviews its estimate of the number of equity instruments expected to vest. The impact of the original estimates, if any, is recognized in the profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the "Share Option Outstanding Account" in Other Equity.

The employees of the Group have also been granted stock options in respect of the shares of OFB Tech Limited (formerly known as OFB Tech Private Limited), the Ultimate Holding Company. The Group has entered into repayment arrangement for the provision of share based payments with the Ultimate Holding Company for the ESOP granted and reimburse to the Ultimate Holding Company as and when expenses recognised on the basis of grant date fair valuation.

### 2.11 Financial instruments:

Financial assets and financial liabilities are recognised in the Group's balance sheet when the Group becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

A financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

#### (i) Financial assets

##### a. Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets. (Refer note no.55).

### b. Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to sole payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets are measured at FVTOCI subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest revenue and are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the statement of profit and loss.

### c. Debt instruments at amortised cost

The Group assesses the classification and measurement of a financial asset based on the contractual cash flow characteristics of the asset and the Group's business model for managing the asset.

For an asset to be classified and measured at amortised cost, its contractual terms should give rise to cash flows that are solely payments of principal and interest on the principal outstanding (SPPI).

The Group considers all relevant information available when making the business model assessment. However, this assessment is not performed on the basis of scenarios that the Group does not reasonably expect to occur, such as so-called 'worst case' or 'stress case'

scenarios. The Group takes into account all relevant evidence available such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed; and
- how managers of the business are compensated (e.g. whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

The Group reassess its business models each reporting period to determine whether the business models have changed since the preceding period. For the current and prior reporting period the Group has not identified a change in its business models.

When a debt instrument measured at FVTOCI is derecognised, the cumulative gain/loss previously recognised in OCI is reclassified from equity to profit or loss. In contrast, for an equity investment designated as measured at FVTOCI, the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to profit or loss but transferred within equity. Debt instruments that are subsequently measured at amortised cost or at FVTOCI are subject to impairment.

### d. Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

### e. De-recognition

A financial asset (or, where applicable, a part of a financial asset) is primarily de-recognised when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

material delay to a third party under a 'pass-through' arrangement; and

- either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.
- The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

### f. Transfer of Loan Exposure

The Group transfers loans through securitisation and direct assignment transactions. In accordance with Ind AS 109 the transferred loans are derecognised and gains/losses are accounted for, only if the Group transfers substantially all its risks and rewards specified in the underlying assigned loan contracts.

#### a. Direct Assignment

Transfer of loan exposure under Direct Assignment results in immediate separation from the risks and rewards associated with such loans to the extent that the economic interest has been transferred. The transferee gets an unfettered right to transfer or otherwise dispose of such loans free of any restraining condition to the extent of economic interest transferred to them. Profit or loss on such loans is recognised in the statement of profit and loss for the period in which such loans have been transferred.

#### b. Securitization transactions

In accordance with Ind AS 109, in case of securitization transactions, the group retains substantially all the risks and rewards of ownership of a transferred financial asset, the group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

#### (ii) Financial Liabilities:

- a. Financial liabilities, including derivatives, which are designated for measurement at FVTPL are subsequently measured at fair value.  
All other financial liabilities including loans and borrowings are measured at amortised cost using Effective Interest Rate (EIR) method.
- b. A financial liability is derecognised when the related obligation expires or is discharged or cancelled.

#### (iii) Instruments Entirely Equity in nature

The classification of a financial instruments or its component parts, on initial recognition as a financial liability, a financial asset or an equity instrument, is done in accordance with the substance of the contractual arrangement and the definitions of a financial liability, a financial asset and an equity instrument. An instrument is classified as an equity instrument or an instrument entirely equity in nature when the said instrument has no other financial instrument or contract that has:

- total cash flows based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the entity (excluding any effects of such instrument or contract) and
- the effect of substantially restricting or fixing the residual return to the instrument holders.

Instruments entirely equity in nature, are presented as a separate line item on the face of the Balance Sheet under 'Equity' after 'Equity Share Capital' but before 'Other Equity'.

#### (iv) Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the face value and proceeds received in excess of the face value are recognised as securities premium.

### 2.12 Fair value measurement

The Group measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

When measuring the fair value of an asset or a liability, the Group uses observable market data to the extent possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group measures financial instruments, such as, investments, at fair value on each reporting date. In addition, the fair value of financial instruments measured at amortized cost and FVTPL is disclosed in Note 51.

### 2.13 Impairment:

The Group recognises loss allowances for expected credit losses (ECLs) on the following financial instruments that are not measured at FVTPL:

- Loans and advances to customers;
- Debt investment securities;
- Trade and other receivable;
- Irrevocable loan commitments issued; and
- Financial guarantee contracts issued.

### Credit-impaired financial assets

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;

It may not be possible to identify a single discrete event—instead, the combined effect of several events may have caused financial assets to become credit-impaired.

### Significant increase in credit risk

The Group monitors all financial assets and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity

at the current reporting date when the financial instrument was first recognised. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Group's historical experience and expert credit assessment.

Given that a significant increase in credit risk since initial recognition is a relative measure, a given change, in absolute terms, in the Probability of Default will be more significant for a financial instrument with a lower initial PD than compared to a financial instrument with a higher PD.

### Definition of default

Critical to the determination of ECL is the definition of default. The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL, as default is a component of the probability of default (PD) which affects both the measurement of ECLs and the identification of a significant increase in credit risk.

The Group considers the following as constituting an event of default:

- The borrower is past due more than 90 days on any material credit obligation to the Group; or
- The borrower is unlikely to pay its credit obligations to the Group in full.

The definition of default is appropriately tailored to reflect different characteristics of different types of assets.

When assessing if the borrowers is unlikely to pay its credit obligations, the Group takes into account both qualitative and quantitative indicators. The information assessed depends on the type of the asset, for example in corporate lending a qualitative indicator used is the admittance of bankruptcy petition by National Company Law Tribunal. Quantitative indicators, such as overdue status and non-payment on another obligation of the same counterparty are key inputs in this analysis. The Group uses a variety of sources of information to assess default which are either developed internally or obtained from external sources. The definition of default is applied consistently to all financial instruments unless information becomes available that demonstrates that another default definition is more appropriate for a particular financial instrument.

### Expected credit loss model

Basis the above-defined criteria, the Group considering the short-term nature of the majority of underlying portfolio of financial assets, calculates ECL on a collective basis as per the ECL model.

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

The expected credit loss is a product of exposure at default ('EAD'), probability of default ('PD') and loss given default ('LGD'). Accordingly, the financial assets have been segmented into three stages based on the risk profiles. The three stages reflect the general pattern of credit deterioration of a financial asset. The Group categorises financial assets at the reporting date into stages based on the days past due ('DPD') status as under:

- Stage 1: Low credit risk, i.e. 0 to 30 days past due
- Stage 2: Significant increase in credit risk, i.e. 31 to 90 days past due
- Stage 3: Impaired assets, i.e. more than 90 days past due

LGD estimate of loss from a transaction given that a default occurs. PD is defined as the probability of whether the borrower will default on their obligation in the future. For assets which are in Stage 1, a 12-month PD is required. For Stage 2 assets a lifetime PD is required while Stage 3 assets are considered to have a 100% PD. EAD represents the expected exposure in the event of a default and is the gross carrying amount in case of the financial assets held by the Group.

The inputs and models used for calculating ECLs may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are made as temporary adjustments. The Group regularly reviews its models in the context of actual loss experience and make adjustments when such differences are significantly material.

### Presentation of allowance for ECL in the Balance Sheet:

Loss allowances for ECL are presented in the statement of financial position as follows:

- for financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- for debt instruments measured at FVTOCI: no loss allowance is recognised in Balance Sheet as the carrying amount is at fair value.

### 2.14 Write off:

Financial assets are written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when, as at the reporting date, financial asset is overdue for 12 months or more and the Group determines that the debtor does not have assets or source of income that could generate sufficient cash flows to repay the amounts subject to the write off.

Any subsequent recoveries are credited to impairment on financial instrument on statement of profit and loss

### 2.15 Foreign Currency Transactions

Transactions in foreign currencies are translated into the functional currency of the Group at the exchange rates prevailing on the date of the transaction. Exchange differences arising due to the differences in the exchange rate between the transaction date and the date of settlement of any monetary items are taken to the statement of profit and loss. Monetary assets and monetary liabilities denominated in foreign currency are translated at the exchange rate prevalent at the date of the Balance Sheet and resultant gain/loss is taken to the Statement of Profit and Loss.

### 2.16 Derivative financial instruments

The Group enters into derivative financial instruments to manage its exposure to interest rate risk and foreign exchange rate risk. Derivatives held include foreign exchange forward contracts, interest rate swaps and cross currency interest rate swaps. Derivatives are initially recognised at fair value at the date of a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain/loss is recognised in the statement of profit and loss immediately unless the derivative is designated and is effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedge relationship. The Group designates certain derivatives as hedges of highly probable forecast transactions (cash flow hedges). A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability.

### Hedge accounting

The Group makes use of derivative instruments to manage exposures to interest rate and foreign currency. In order to manage particular risks, the Group applies hedge accounting for transactions that meet specific criteria. At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Group's risk management objective and strategy for undertaking hedge, the hedging / economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the Group would assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

### Cash Flow Hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction and could affect profit and loss. For designated and qualifying cash flow hedges, the effective portion of the cumulative gain or loss on the hedging instrument is initially recognised directly in OCI within equity (cash flow hedge reserve). The ineffective portion of the gain or loss on the hedging instrument is recognised immediately in Finance Cost in the statement of profit and loss. When the hedged cash flow affects the statement of profit and loss, the effective portion of the gain or loss on the hedging instrument is recorded in the corresponding income or expense line of the statement of profit and loss. When a hedging instrument expires, is sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in OCI at that time remains in OCI and is recognised when the hedged forecast transaction is ultimately recognised in the statement of profit and loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in OCI is immediately transferred to the statement of profit and loss.

### 2.17 Cash and cash equivalents:

Cash and bank balances also include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

### 2.18 Borrowing costs:

Borrowing costs include interest expense calculated using the effective interest method, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs. Borrowing costs net of any investment income from the temporary investment of related borrowings, that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### 2.19 Taxation:

#### Current Tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with Income tax Act, 1961, Income Computation and Disclosure Standards and other applicable tax laws. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date.

#### Deferred Tax:

Deferred tax assets and liabilities are recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are only recognised for temporary differences, unused tax losses and unused tax credits if it is probable that future taxable amounts will arise to utilise those temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and they relate to income taxes levied by the same tax authority on the same taxable entity, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities are realised simultaneously.

### 2.20 Provisions, contingent liabilities, contingent assets and commitments:

#### (i) Provisions, contingent liabilities and contingent assets:

Provisions are recognised only when:

- there is a present obligation (legal or constructive) as a result of a past event; and
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets are not recognised in the financial statements. Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

### (ii) Commitments:

Commitments are future liabilities for contractual expenditure, classified and disclose as follows:

- a. Estimated amount of contracts remaining to be executed on account of capital account and not provided for.
- b. Uncalled liability on shares and other investments partly paid; and
- c. Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of the management.

### 2.21 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit/(loss) before tax for the year, is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions.

### 2.22 Lease:

The Group, as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the group has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The

right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the For short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

### 2.23 Effective Interest Rate:

The Group's EIR methodology, recognizes interest income/expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

### 2.24 Earnings per share:

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

### 2.25 Business Combination

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory.

Business Combination involving entities or businesses under common control shall be accounted for using the pooling of interest method based on the predecessor values retrospectively for all periods presented.

The pooling of interest method is considered to involve the following:

- i. The assets and liabilities of the combining entities are reflected at their carrying amounts.
- ii. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

adjustments that are made are to harmonise accounting policies.

- iii. The components of other equity of the acquired companies are added to the same components within other equity except that any share capital and investments in the books of the acquiring entity is cancelled.
- iv. The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information shall be restated only from that date.

### 2.26 Material accounting estimates, judgements and assumptions:

The preparation of the Group's financial statements requires Management to make use of estimates, judgements and assumptions. These estimates, judgments and assumptions affect the application of accounting policies, the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as at the reporting date and the reported amount of revenues and expenses during the year. Accounting estimates could change from period to period. In view of the inherent uncertainties and a level of subjectivity involved in measurement of items, it is possible that the outcomes in the subsequent financial years could differ from the Management's estimates and judgements.

Material accounting estimates and judgements are used in various line items in the financial statements are as below:

- Business model assessment [Refer note no. 2.11]
- Impairment of financial assets [Refer note no. 2.13]
- Provisions and contingent liabilities [Refer note no.2.20]
- Fair value of financial instruments [Refer note no.2.12]

### 2.27 Operating Cycle:

Based on the nature of products / activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### 2.28 Recent accounting pronouncement:

The Ministry of Corporate Affairs vide notification dated May 7, 2025 and August 13, 2025 notified the Companies

(Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 1, 2025:

- a. Ind AS 21, The Effects of Changes in Foreign Exchange Rates. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any impact in its financial statements.
- b. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.
- c. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any impact in its financial statements.
- d. Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately - The Company is not within the scope of OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

- During the financial year ended 31 March 2025, the subsidiary Oxy Venture Private Limited became entitled to receive additional CCPS in Euler Motors Private Limited under the anti-dilution (valuation protection) clause of the investment agreement. Accordingly, shareholding increased from:
  - Series C CCPS: 635 to 1,430 shares
  - Series B2 CCPS: 388 to 461 shares
 During the financial year ended 31 March 2026, the shareholding further increased to:
  - Series C CCPS: 1,430 to 1,533 shares
  - Series B2 CCPS: 461 to 494 shares
 These shares were issued at no additional cost, following a down-round by the Euler motors private limited.
- During the financial year ended 31 March 2026, the subsidiary Oxy Venture Private Limited reassessed the fair value of its investment in 725 fully paid-up equity shares of Log 9 Materials Scientific Private Limited, classified as fair value through other comprehensive income (FVTOCI) under Ind AS 109.
 

Considering the ongoing insolvency proceedings initiated against the investee company under the National Company Law Tribunal (NCLT), continued defaults in debt obligations, and management's assessment of negligible recoverable value, the company has fair valued the investment at NIL as at the reporting date. Accordingly, a fair value loss of ₹164.60 lakhs has been recognised in other comprehensive income (OCI) during the year.

The investment was originally acquired during FY 2022-23 for ₹139.91 lakhs and had a carrying value of ₹164.60 lakhs as at 31 March 2026 prior to fair valuation adjustment.
- During the previous year ended 31 March 2025, the investee company, Everest Fleet Private Limited, undertook a sub-division (split) of its compulsorily convertible preference shares (CCPS). The existing 5 CCPS held by the subsidiary Oxy Venture Private Limited were split in the ratio of 1:10, resulting which the company is now holding 50 CCPS in Everest Fleet Private Limited as of the reporting date.

### b) Defined benefit plans:

The Holding company operates a funded gratuity benefit plan wherein every employee is entitled to a benefit equivalent to 15/26 days last drawn qualifying wages for each completed year of service. The same is payable on termination of service, or retirement, or death, whichever is earlier. The benefit vests after five years of continuous service. Gratuity benefits are valued in accordance with the provisions of payment of gratuity under The Code on Social Security, 2020.

The trust named "Oxyzo Financial Services Private Limited Employee Group Gratuity Trust" was formed on 25 March 2022, approval of which from Income Tax department is received on 24 March 2023 w.e.f 25 March 2022. The gratuity plan is a funded plan and the Holding company makes contributions to approved gratuity fund.

The gratuity plan of the Holding Company is funded gratuity plan. These plans typically expose the Holding Company to actuarial risks such as: Interest rate risk, Liquidity risk, Salary escalation risk, demographic risk, regulatory risk. The gratuity plan for the subsidiary companies are unfunded plan.

During the year ended 31 March 2025, The Holding company has deposited ₹ 250 lakhs (previous year ₹ 93.21 lakhs) in Oxyzo Financial Services Private Limited Employee Group Gratuity Trust. The trust manages gratuity fund with LIC, SBI Life Insurance Company Limited, ICICI Prudential Life Insurance Co Ltd. and Aditya Birla Sun Life Insurance Company Limited.

|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Interest rate risk                         | The plan exposes the Holding Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in consolidated financial statements).                                                 |
| Liquidity risk                             | This is the risk that the Holding Company is not able to meet the short-term gratuity payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.                                                                                                   |
| Salary escalation risk                     | The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability. |
| Demographic risk                           | The Holding Company has used certain mortality and attrition assumptions in valuation of the liability. The group is exposed to the risk of actual experience turning out to be worse compared to the assumption.                                                                                                                                      |
| Regulatory Risk                            | Gratuity benefit is paid in accordance with the requirements of Chapter V (Gratuity of the Code on Social Security, 2020 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).                                                 |
| Asset Liability Mismatching or Market Risk | The duration of the liability is longer compared to duration of assets, exposing the Holding Company to market risk for volatilities/fall in interest rate.                                                                                                                                                                                            |
| Investment Risk                            | The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.                                                                                                                                                                                                                                    |

The most recent actuarial valuation of the present value of the defined benefit obligation were carried out as at 31 March 2026 by Ms. Vichitra Malhotra (FIAI M.No. 10336), Fellow of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost, were measured using the projected unit credit method.

### Sensitivity Analysis

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There is no change in the method of valuation for the prior period.

### c) Other long-term benefits:

Provision for unfunded Compensated Absences for all employees is based upon actuarial valuations carried out at the end of every financial year. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Pursuant to the issuance of the Indian Accounting Standard (Ind AS) 19 on 'Employee Benefits', commitments are actuarially determined using the 'Projected Unit Credit' Method. Gains and losses on changes in actuarial assumptions are accounted for in Statement of Profit and Loss for Compensated absences.

| Interest rate risk | The plan exposes the Group to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements). |

|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Liquidity risk         | This is the risk that the Group is not able to meet the short-term benefit payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.                                                                                                            |
| Salary escalation risk | The present value of the above benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability. |
| Demographic risk       | The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.                                                                                                                                              |

### Sensitivity Analysis (on standalone basis)

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonable possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

| Particulars                                    | As at 31 March 2026 |          | As at 31 March 2025 |          |
|------------------------------------------------|---------------------|----------|---------------------|----------|
|                                                | Decrease            | Increase | Decrease            | Increase |
| Discount Rate (-/+ 1%)                         | 506.77              | 348.97   | 220.34              | 158.28   |
| (% change compared to base due to sensitivity) | 21.10%              | -16.60%  | 18.70%              | -14.80%  |
| Salary Growth Rate (-/+ 1%)                    | 349.73              | 503.78   | 158.78              | 218.85   |
| (% change compared to base due to sensitivity) | -16.40%             | 20.40%   | -14.50%             | 17.90%   |
| Attrition Rate (-/+ 50% of attrition rates)    | 449.19              | 394.84   | 212.77              | 168.24   |
| (% change compared to base due to sensitivity) | 7.30%               | -5.70%   | 14.60%              | -9.40%   |
| Mortality Rate (-/+ 10% of mortality rates)    | 418.92              | 418.04   | 185.92              | 185.43   |
| (% change compared to base due to sensitivity) | 0.10%               | -0.10%   | 0.10%               | -0.10%   |

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

(All amounts in Lakhs of ₹ unless otherwise stated)

- 46.2** The Government of India has consolidated 29 existing labour legislations into a unified framework comprising four labour codes, viz. the Code on Wages, 2019, the Code on Social Security, 2020, the Industrial Relations Code, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively referred to as the "Codes"). The Codes have been made effective from 21 November 2025. The Ministry of Labour & Employment has published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations.

The incremental impact of these changes, assessed by the Group on the basis of the information available, is not material and has been recognised under Employee Benefits in the financial statements of the Group for the year ended 31 March 2026. Once the Central / State Rules are notified by the Government on all aspects of the Codes, the Group will evaluate the impact, if any, on the measurement of employee benefits and would provide appropriate accounting treatment.

## 50. Capital

The Holding Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the Reserve Bank of India (RBI) of India. The adequacy of the Holding Company's capital is monitored using, among other measures, the regulations issued by RBI.

The Holding Company has complied in full with all its externally imposed capital requirements over the reported year.

### 50.1 Capital management

The capital management objectives of the Holding Company are:

- to ensure that the Holding Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios
- to ensure the ability to continue as a going concern
- to provide an adequate return to shareholders

The Holding Company monitors capital on the basis of the carrying amount of debt less cash and cash equivalents and other bank balances as presented in the balance sheet.

Management assesses the capital requirements of the Holding Company in order to maintain an efficient overall financing structure. This takes into account the subordination levels of the Holding Company's various classes of debt. The Holding Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

## Notes forming part of the consolidated financial statements for the year ended 31 March 2026

(All amounts in Lakhs of ₹ unless otherwise stated)

In order to maintain or adjust the capital structure, the Holding Company may adjust the amount of dividends paid to shareholders, return on capital to shareholders, issue new shares, or sell assets to reduce debt. The Holding Company has a target gearing ratio of 3.00 to 3.50 determined as a proportion of net debt to total equity.

### 51. Financial instruments

#### 51.1 Financial instruments by category and fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- recognised and measured at fair value and
- measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the Indian accounting standard. An explanation of each level follows underneath the table.

\*Cash and cash equivalents, other bank balances, trade receivables, other financial assets, trade payables, other payables and other financial liabilities: approximate their carrying amounts largely due to the short-term maturities of these instruments.

### 51.2 Valuation framework

The group measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The group measures fair values using fair value hierarchy, which reflects the significance of the inputs used in making the measurements. Refer note 2.12 for details on fair value measurement and hierarchy.

The group uses suitable valuation models to determine the fair value of common and simple financial instruments, that use only observable market data and require little management judgement and estimation.

(All amounts in Lakhs of ₹ unless otherwise stated)

**Loans:** The fair value of loan and advances are estimated by discounted cash flow models and using Effective Interest Rate (EIR) method. Fair value is then reduced by the impairment loss allowance on loans which is already calculated incorporating probability of default and loss given defaults.

**Debt securities, borrowings (other than debt securities):** The fair values of the group's borrowings and other debt securities are calculated based on a discounted cash flow model and for the purpose of disclosures debt securities are classified under Level 2 and borrowings (other than debt securities) are classified under Level 3 and are measured at amortised cost using Effective Interest Rate (EIR) method. The discount rates were based on the available interest rates in the market.

**Investments:** Investments: Investment in debt securities is recorded at discounted cash flow models and using Effective Interest Rate (EIR) method. Fair value in other Investment is based on the information available from external sources such as market-observable including secondary market prices or NAV and where no data is available, it is estimated using prevailing rate on balance sheet date. Management believes that the carrying value of the investments approximates the fair value.

There were no transfers between levels during the year.

#### Employee Stock Option Plan ("ESOP Plan")

OFB Tech Limited (Formerly Known as OFB Tech Private Limited) ('OFB'), the Ultimate Holding Company, had framed an OfBusiness Stock Options Plan, 2016 ('ESOP 2016 Plan'), which was duly approved by the Shareholder of the OFB in the Extraordinary General Meeting held on 08 April 2016. ESOP 2016 Plan will be administered by Compensation committee and in the absence of such committee, Board of Directors of the OFB shall ensure the administration of the ESOP 2016 Plan. The stock options granted are categorized as equity settled and have a graded vesting.

OFB had sub-divided its shares in the ratio of 1:10 on 25 June 2021. Further the OFB had made bonus issuance in the ratio of 1:2120 on 05 July 2021. All ESOP outstanding as on 05 July 2021 has been adjusted in terms of ESOP plan.

Pursuant to incorporation of the Holding Company, certain employees of OFB were transferred to the Holding Company. To align the interest of employees, it was determined that transferred employees of the Holding Company may continue to participate in the ESOP 2016 Plan of OFB and accordingly they are entitled to shares of OFB. Further the plan has been extended to the employees of the Holding Company by the ultimate holding company.

### 55. Financial risk management

#### Risk Management

Risk is an integral part of the Holding Company's business and sound risk management is critical to the success. As a Non-banking financial company, the Holding Company is exposed to risks that are particular to its lending and the environment within which it operates and primarily includes credit, liquidity and market risks. The Holding Company's Board of directors has overall responsibility for the establishment and oversight of the risk management framework. In accordance with the RBI guidelines to enable NBFCs to adopt best practices and greater transparency in their operations, the Board of Directors of the Holding Company has constituted a Asset Liability Management Committee (ALCO) and Risk Management Committee. Risk Management Committee reviews risk management in relation to various integrated risks of the Holding Company. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

### A) Credit risk

Credit risk arises from loans, cash and cash equivalents, bank balance other than cash and cash equivalents, investments and other financial assets. Credit risk is the risk that a counterparty fails to discharge its obligation to the group. The Group has established various internal risk management process to provide early identification of possible changes in the creditworthiness of counterparties. The credit quality review process aims to allow the Holding Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions. The carrying amounts of financial assets represent the maximum credit risk exposure.

Credit risk arises from loans financing, cash and cash equivalents, investments carried at amortised cost and deposits with banks and financial institutions, as shown below:

| Particulars               | As at 31 March 2026 | As at 31 March 2025 |
|---------------------------|---------------------|---------------------|
| Loans                     | 10,54,516.35        | 8,25,527.68         |
| Investments               | 68,089.44           | 40,824.36           |
| Trade Receivables         | 56.25               | 96.04               |
| Cash and cash equivalents | 16,695.04           | 35,154.93           |
| Other bank balances       | 29,422.83           | 11,816.77           |
| Other financial assets    | 3,619.81            | 2,225.11            |

The Holding Company splits its exposure into smaller homogeneous portfolios, based on shared credit risk characteristics, as described below in the following order:

- Secured/unsecured i.e. based on whether the loans are secured
- Nature of security i.e. the nature of the security if the loans are determined to be secured
- Nature of loan i.e. based on the Nature of loan
- Nature of segment classification

The credit risk management policy of the Holding Company seeks to have following controls and key metrics that allows credit risks to be identified, assessed, monitored and reported in a timely and efficient manner in compliance with regulatory requirements.

- Standardise the process of identifying new risks and designing appropriate controls for these risks
- Maintain an appropriate credit administration and loan review system
- Establish metrics for portfolio monitoring
- Minimise losses due to defaults or untimely payments by borrowers
- Design appropriate credit risk mitigation techniques

### Expected credit loss for loans

In order to mitigate the impact of credit risk in the future profitability, the Holding Company makes reserves basis the expected credit loss (ECL) model for the outstanding loans as balance sheet date. In addition to ECL output, the Holding Company has taken conservative view through specific provisions.

Refer Accounting Policy Note No. 2.13

### Collateral and other credit enhancements

The loan portfolio of the Holding Company has both secured and unsecured loans and they vary with the type of funding. Basis the past history of receipts against collateral, the overall ECL for the secured portfolio is net of collateral value.

### Quantitative and qualitative factors considered along with quantification i.r.t loss rates

Impact of specific risk factors was also taken into account while staging of accounts and computation of PD. As part of its assessment of forward-looking information, the Company also studied the potential relationship between through-the-cycle ("TTC") PDs, systemic default trends and selected macroeconomic variables. The macro-economic variables were regressed using a logical regression against systemic default ratio out of the impact of macro-economic variables on the system wide default rates. These scenarios reflect a baseline, upturn and downturn in economic activity basis which ECL requirements could vary. The outcomes of this exercise were reviewed for any possible changes in the PD rates.

### B) Liquidity risk

Liquidity risk arises as Holding Company has contractual financial liabilities that is required to be serviced and redeemed as per committed timelines and in the business of lending where money is required for the disbursement and creation of financial assets to address the going concern of Holding Company. Liquidity risk management is imperative to Holding Company as this allows covering the core expenses, market investment / creation of financial assets, timely repayment of debt commitments and continuing with their operations.

Management of the Holding Company monitors forecast of liquidity position and cash and cash equivalents on the basis of expected cash flows. The Asset Liability Management Policy aims to align market risk management with overall strategic objectives, articulate current interest rate view and determine pricing, mix and maturity profile of assets and liabilities. The asset liability management policy involves preparation and analysis of liquidity gap reports and ensuring preventive and corrective measures. It also addresses the interest rate risk by providing for duration gap analysis and control by providing limits to the gaps.

The Holding Company aim to maintain the level of its cash equivalents, un-utilised borrowing lines and cash inflow at an amount in excess of expected cash outflows on financial liabilities over the next one year. At 31 March 2026, the net of expected cash inflows and outflows within 12 months are ₹ 3,43,339.69 (31 March 2025: ₹ 3,25,998.86). Refer note 56 for Maturity analysis of assets and liabilities.

### C) Market Risk

Market risk is the risk that the fair value or future cash flow of financial instrument will fluctuate due to changes in market variables such as interest rates, foreign exchange rates etc. The objective of market risk management is to manage and control market risk exposure within acceptable parameters while maximising the return.

#### i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Holding Company's exposure to the risk of changes in market interest rates relates primarily to the Holding Company's variable interest rate lending and borrowings. further, whenever there is a change in borrowing interest rate for the Holding Company, necessary change is reflected in the lending interest rates over the timeline in order to mitigate the risk of change in interest rates of borrowings.

#### Interest Rate Risk Exposure:

The interest rate profile of the Holding Company's interest bearing financial instruments is as follows:

### 58 Leases

#### Group is a Lessee

- (a) The Group has lease contracts for various office premises used in its operations. Leases of office premises generally have lease terms between 3 to 9 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Group is restricted from assigning and subleasing the leased assets. The Group also has certain leases of office premises with lease terms of 12 months or less. The Group applies the short-term lease' recognition exemptions for these leases.
- (b) Leases are shown as follows in the Consolidated balance sheet and profit & loss account

Pursuant to the provisions of Section 149(8) read with Schedule IV, Section 178(2), Section 134(3) (p) of the Companies Act, 2013, the performance of Board, Committees, Chairperson and individual Directors was evaluated on the basis of the criteria specified by the Nomination and Remuneration Committee, with an aim to improve the effectiveness and efficiency of the Board and Committees.

During period under review the Board conducted the performance evaluation and based on the performance evaluation criteria, the performances were found satisfactorily, and all Directors rated between Good and Excellent to the performance of each Director (except himself/herself), Board Committees, Chairperson and Board as whole.

The evaluation involves self-evaluation by the Board Member and subsequent assessment by the Independent Directors. A member of the Board does not participate in the discussion of his/her evaluation. The performance evaluation of the Non-Independent Directors, Chairman and the Board as a whole is carried out by the Independent Directors.

Feedback is sought by well-defined and structured questionnaires covering various aspects of the Board's functioning such as adequacy of the composition of the Board and its Committees, areas of responsibility, execution and performance of specific duties, obligations and governance, compliance, etc.

The Performance Evaluation is carried out which is part of Nomination & Remuneration Policy and same is also available on the Company website <https://www.oxyzo.in/en/investor-relations/codes-policies>.

**Performance Evaluation framework of the Company is as follows:**

- a. NRC would approve framework of performance evaluation of the Company;
- b. Board would evaluate the performance of the Independent Directors, Board as a whole and Committees of the Board;
- c. Independent Directors would evaluate the performance of the Board of the Company after taking views of other directors, Board as a whole, Managing Director & CEO and Non-Independent Directors; and
- d. Self-evaluation of individual Directors.

Further, in pursuance to the "Fit and Proper" policy adopted by the Company as per the Reserve Bank of India's (RBI) Master Directions, the Company obtained the 'Fit and Proper' declarations from all the Directors for their respective appointment/re-appointment. The selection and appointment of Directors of the Company is done in accordance with the relevant provisions of the Companies Act, 2013 read with rules made thereunder and the master directions/guidelines issued by the RBI.

The criteria of appointment of Directors/KMPs/SMPs have been provided in the Nomination and Remuneration Policy of the Company which can be accessed at <https://www.oxyzo.in/en/investor-relations/codes-policies>.

## IV. Meeting of Independent Director

Pursuant to Section 149(8) read with Schedule IV of Companies Act, 2013, ("the Act") a meeting of the Independent Directors of the Company is required to be conducted once in a financial year in the absence of Non- Independent Directors.

During the financial year under review, a meeting of Independent Directors was held on 20th March 2026 which was chaired by Mr. Praveen Kumar Bhambani and attended by all the Independent Directors of the Company.

### Maximum Tenure of Independent Directors

In terms of the Act, independent directors shall hold office for a maximum term of up to five consecutive years on the Board of the Company but shall be eligible for re-appointment for a further period of up to five years on passing of a special resolution by the Company and disclosure of such appointment shall be made in the Board's Report. The tenure including the re-appointment tenure shall be in accordance with the prescribed limit mentioned under the Act.

The Company issues a formal letter of appointment/re-appointment to Independent Directors in the manner provided under the Act. The terms and conditions for appointment/ re-appointment of the Independent Directors is placed on the Company's website and can be accessed at <https://www.oxyzo.in/en/investor-relations/codes-policies>.

## V. Remuneration of Directors

### • Remuneration to Non-Executive Independent Directors

The Independent Directors are paid sitting fees for attending each meeting of the Board of Directors, Committee meetings or any general meetings thereof as approved by the Board, within the permissible limit prescribed under the Companies Act, 2013, and other regulatory

guidelines, as amended from time to time. The Company is being benefited from the expertise, advice and inputs provided by the Independent Directors. The Independent Directors devote their valuable time in deliberating on the strategic and critical issues in the course of the Board and Committee meetings of the Company and give their valuable advice, suggestion and guidance to the management of the Company from time to time.

Further, the Company has not granted any employee stock options to the Independent Directors. None of the Non-Executive Independent Directors have any other material pecuniary relationship or transaction with the Company, its Promoters, or Directors, or Senior Management which, in their judgment, would affect their independence.

#### • Remuneration to Executive Directors

The Nomination and Remuneration Committee (“NRC”) reviews and assesses Board composition and recommends the appointment of new Directors. Based on recommendations of the NRC, the Board evaluates the candidate(s) and decide on the selection of the appropriate member. Your Company has a well-defined Nomination and Remuneration Policy (NRC Policy) for its Directors, Key Managerial Personnel and senior management personnel, regulated by NRC. The NRC Policy has set of principles and objectives as more fully and particularly envisaged under Section 178 of the Companies Act, 2013 read with applicable guidelines issued by Reserve Bank of India and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc. The Criteria of making payments to Director has been stipulated in NRC Policy of the Company which is enclosed as a part of this Board Report and can also be accessed at <https://www.oxyzo.in/en/investor-relations/codes-policies>.
